PREFACE

IN this volume we have endeavored to present to you the application of the principal tariffs applying within the Central Freight Association Territory, also tariffs applying from Central Freight Association Territory to other points in the United States and Canada where through rates are published, and the method of making combination rates to other points in the United States, Canada, and Mexico, where no through rates are published, showing the basing points on which these combination rates are made. We have also endeavored to show you the manner in which tariffs are published within and from the Canadian Freight Association Territory to other points in the United States, Canada, and Mexico, showing the manner in which combination rates are made, where through rates are not provided for, also the application and method of publication of tariffs within the Canadian Northwest Territory and from the Canadian Northwest Territory to other points in the United States, Canada, and Mexico.

It is not necessary to give specific reference to each and every tariff published within and from these territories to different territories in the United States. The aim here has been to give reference to the most important tariffs containing through rates and used as a basis for combination rates. If this is thoroughly understood, you will be able to determine the less important tariffs which name the rates on shipments within and from these territories.

We have endeavored to give you the application and method of publication of the principal tariffs in use at the present time, and while it is true that a great many changes are being made in the rates themselves, as a general proposition, the method of tariff publication does not change very materially, and once you are in touch with the application of the agency tariffs and the method of publication of the tariffs of the individual carriers, you should have no trouble in locating the legal rates on your shipments.

As a general proposition, commodity rates take precedence over the classification and exception to the classification, while the exception to the classification takes precedence over the classification itself. Consequently, in determining the legal rate, commodity rates and exceptions to the classification must be eliminated before it is proper to use the class rate.

In so far as we know the information contained in this volume has never been given to the public in a similar manner, although several writers have, in a general way, and from a theoretical standpoint discussed the railroad rate situation, without touching on the heart of the problem, viz., the application of the tariffs naming the legal rates, which is in reality the greatest problem that confronts the railroads and the shipping public.

APPLICATION OF TARIFFS WITHIN THE CENTRAL FREIGHT ASSOCIATION.

§ 1. Tariffs Published by the Central Freight Association.
§ 2. Tariffs Published by the Western Trunk Line Committee.
§ 3. Tariffs Published by the Chicago & Ohio River Freight Committee.
§ 4. Tariffs Published by the St. Louis East Bound Committee and by the St. Louis, Louisville, Cincinnati Committee.
§ 5. Tariffs Published by the Southern Freight Association.
§ 6. Tariffs Published by the Illinois Freight Committee.
§ 7. Tariffs Published by the Ohio Coal Traffic Association.

CHAPTER I.

APPLICATION OF TARIFFS WITHIN THE CENTRAL FREIGHT ASSOCIATION.

The tariffs applying within the Central Freight Association Territory are published by the following associations and committees:

(1) By the Central Freight Association.

(2) By the Western Trunk Line Committee.

(3) By the Chicago & Ohio River Freight Committee.

(4) By the St. Louis East Bound Committee and by the St. Louis, Louisville, Cincinnati Committee.

(5) By the Southern Freight Association.

(6) By the Illinois Freight Committee.

(7) By the Ohio Coal Traffic Association.

The manner in which these tariffs are published is as follows:

The serial numbers on the tariffs, issued by the Central Freight Association, the Western Trunk Line Committee, the Ohio River Committee, the St. Louis East Bound Committee, the St. Louis, Louisville, Cincinnati Committee and the Illinois Freight Committee, do not change. For example, when a tariff is issued by one of these committees, it is given a serial number, as "No. 41." When this tariff is reissued the number 41 is also used on the reissue, and is either prefixed or affixed by the letter "A." The next issue, therefore, would be No. "41-B," etc. In the following presentation, covering these tariffs, the Serial Number of

each is also given, which permits its prompt location should it be required for use in a given case.

The number on the tariff issued by the Southern Freight Association is subject to change. This is also true of the tariffs published by the Ohio Coal Traffic Association. However, the description furnished should enable you to determine their proper application.

An outline of the tariffs published by each of the above named committees, together with their application, is herewith presented:

§ 1. Central Freight Association.

There are various class, miscellaneous and specific commodity rates, applying between points in the Central Freight Association Territory. Some of these rates are contained in tariffs devoted exclusively to traffic moving from Green Bay, Marinette and Oconto, Wis., Menominee, Mich., and points taking the same rates, to other stations in Central Freight Association Territory. Similar tariffs, both class and commodity, are provided to cover shipments originating at Milwaukee, Manitowoc and Racine, Wis., and stations in Illinois and Wisconsin which take the same rates, and destined to points within the Central Freight Association Territory.

Class Rates, also rates on lumber, applying within the Lower Peninsula of Michigan, are contained in special tariffs; while other series contain Class Rates from Central Freight Association Territory to Milwaukee, Manitowoc, Green Bay, Oconto and Marinette, Wis., Manistique, Mich., and points taking the same rates. Rates on Specific Commodities, from the Ohio River Crossings to points in Central Freight Association Territory, constitute other tariffs.

Traffic moving via the various Rail-and-Lake routes is provided for in Class and Commodity Tariffs devoted to that particular traffic, applying within the Central Freight Association Territory; and still other tariffs contain Rail-and-Lake Class Rates from ports located on the East Bank of Lake Michigan, to points in Central Freight Association Territory.

Other tariffs contain Exceptions to Official Classification, Quarantine Rules and regulations covering State, Interstate and Foreign shipments, and rates on Exhibits of the Ohio Agricultural Experiment Station, moving between points within the State of Ohio.

The above will serve to give a general idea of the tariffs published by, and applying within the territory of, the Central Freight Association. More specifically, these tariffs are as follows:

(1) **Class Rates from** Manitowoc, Milwaukee, Racine, Wis., and other points named in tariff **to** stations in Central Freight Association Territory, are published in Freight Tariff 67 Series.

(2) **Commodity Rates from** Milwaukee, Manitowoc, Wis., and points taking same rates, as specified in tariff **to** Central Freight Association Territory, are published in Freight Tariff 68 Series.

(3) **Through Rates on Enameled Ware from** Bellaire, Canton, Ohio, Carnegie, Pa., Cleveland, Ohio, McKees Rocks, Pa., Moundsville, W. Va., North McKees Rocks, Pa., Terre Haute, Ind., and Wheeling, W. Va., **to** points in Illinois and Wisconsin are published in Central Freight Association Tariff 164 Series.

(4) **Iron and Steel Rails (New), Railroad Crossties and Fastenings, from** Milwaukee and Bay View, Wis., to points **in** Central Freight Association Territory, are provided for **in** Freight Tariff 70 Series.

(5) **Lumber, Shingles and Other Forest Products, Carloads** (Proportional Rates), **from** Chicago, Ill., East St. Louis, Ill., Kewaunee, Wis., Mackinaw City, Mich., Manistique, Mich., Manitowoc, Wis., Milwaukee, Wis., Peoria, Ill., and points taking same rates, as named in tariff, **to** stations in Central Freight Association Territory, are provided for in Freight Tariff 127 Series.

(6) **Lumber and Other Forest Products, Carloads, from** DePere, Green Bay, Marinette, Oconto and Peshtigo, Wis., also Menominee, Mich., **to** points in Central Freight Association Territory, are provided for in Freight Tariff 152 Series.

(7) **Grain and Grain Products and Commodities Taking Same Rates from** Milwaukee and Manitowoc, Wis., and points taking same rates **to** Central Freight Association Territory, are provided for in Freight Tariff 111 Series.

(8) **Salt, Carloads, from** Chicago, Ill., **to** stations in Indiana and Ohio, is provided for in Freight Tariff 144 Series.

(9) **Billets, Cast Iron Pipe, Scrap Iron and Articles Taking Same Rates from** Ohio River Crossings and other points in Illinois, Indiana, Kentucky and Ohio **to** Central Freight Association points, are provided for in Freight Tariff 91 Series.

(10) **Pig Iron and Articles Taking Same Rates, Carloads** (Proportional Rates), **from** Ohio River Crossings **to** points in Central Freight Association Territory, are provided for in Freight Tariff 132 Series.

(11) **Lumber and Forest Products, Carloads, from** Ohio River Crossings, East St. Louis, Ill., St. Louis, Mo., and points taking same rates **to** points in Illinois, Indiana, Iowa, Missouri, Wisconsin and Kentucky; also Proportional Rates **to** Upper Mississippi River Crossings (on

traffic destined beyond) are provided for in Freight Tariff 65 Series.

(12) **Lumber and Other Forest Products, Carloads, from** Alton, Ill., East St. Louis, Ill., St. Louis, Mo., Vincennes, Ind., the Ohio River Crossings and points taking same rates **to** points in Central Freight Association Territory, are provided for in Freight Tariff 131 Series.

(13) **Lumber and Other Forest Products, Carloads** (Proportional Rates on shipments originating South of the Ohio River; also on ex-river shipments), **from** the Ohio River Crossings **to** points in Illinois, Indiana, Iowa, Missouri and Wisconsin, are provided for in Freight Tariff 138 Series.

(14) **Salt, Carloads, from** points in Indiana, Michigan (Lower Peninsula), Ohio, Pennsylvania and West Virginia **to** points in Central Freight Association Territory, is provided for in Freight Tariff 95 Series.

(15) **Class Rates** (Local and Joint); also rates on **Lumber, between** stations in Michigan (Lower Peninsula) are published in Freight Tariff 175 Series.

(16) **Exceptions to Official Classification, also Special Rulings Governing Estimated Weights, Minimum Weights, Rental Charges, etc.,** are published in Freight Tariff 130 Series. This tariff applies in connection with tariffs containing reference thereto, and in accordance with the territorial application, as outlined in these Exceptions to Classification. Its rules set aside and take precedence over the Official Classification and rules thereof, but do not apply when in conflict with specific rules contained in tariffs made subject thereto.

(17) **Quarantine Rules and Regulations** of the United States Department of Agriculture, Indian Reservations, the various States, Dominion of Canada and the Republic of Mexico, applying on State, Interstate and Foreign Traf-

fic, and governing the Transportation and Inspection of Bees and Apiary Stock, Cotton, Dairy Products, Hay, Hides, Live Stock, Meats, Meat Food Products, Nursery Stock, Seeds, Straw, and Wild Birds, are published in Tariff 167 Series. This tariff should be consulted when shipping any of the above named commodities, as it contains Laws and Rules governing their transportation and inspection.

(18) **Land Grant Agreement** governing the Transportation of United States Government property are published by the Central Freight Association in Tariff 176 Series.

(19) **Laws and Rules** governing the transportation of liquor to points in the various States and Indian Reservations are published by the Central Freight Association in Tariff 171 Series.

(20) **Interstate Commerce Commission Regulations for the Transportation of Explosives and Other Dangerous Articles by Freight** are published by the Central Freight Association in Tariff 173 Series.

(21) **Class Rates from** points in Central Freight Association Territory **to** Milwaukee, Manitowoc, Green Bay, Oconto, Marinette, Wis., Manistique, Mich., and points taking same rates, are published in Freight Tariff 140 Series.

The following tariffs, issued by the Central Freight Association, contain Rail-and-Water Rates:

(22) **Class and Commodity Rates from** points in Central Freight Association Territory **to** stations in Indiana, Kentucky, Michigan, New York and Wisconsin, are published in Tariff 143 Series.

(23) **Class Rates** (Joint and Proportional) **from** ports on the East Bank of Lake Michigan **to** points in Central Freight Association Territory, are published in Freight Tariff 169 Series.

(24) **Class Rates** (Local, Joint and Proportional) **from** points in Central Freight Association Territory **to** Milwaukee, Manitowoc, Green Bay, Oconto, Marinette, Wis., Manistique, Mich., and stations taking same rates, are published in Freight Tariff 140 Series.

(25) **Class and Commodity Rates from** Green Bay, Marinette, Oconto, Wis., Menominee, Mich., and stations taking same rates **to** points in Central Freight Association Territory, are published in Freight Tariff 139 Series.

(26) **Class Rates** (Local, Joint and Proportional) **from** Manitowoc, Milwaukee, Racine, Wis., and Chicago, Ill., **to** points in Central Freight Association Territory, are published in Freight Tariff 67 Series.

(27) **Commodity Rates, Miscellaneous** (Joint and Proportional), **from** Milwaukee, Manitowoc, Wis., and points taking same rates **to** points in Central Freight Association Territory, are published in Freight Tariff 68 Series.

(28) **Iron and Steel Rails (New), Railroad Crossties and Fastenings, from** Milwaukee and Bay View, Wis., **to** points in Central Freight Association Territory, are published in Tariff 70 Series.

§ 2. Western Trunk Line Committee.

This committee publishes Class Rates, also Territorial Grouping for Commodity Rates, applying on shipments originating West of the Indiana-Illinois State Line, including points in Iowa and Missouri located on the West Bank of the Mississippi River (except St. Louis, Mo., and proportional rates from East St. Louis and the Upper Mississippi River Crossings), also Class Rates from Evansville, Ind., and Louisville, Ky., to Central Freight Association Territory.

They also publish tariffs containing rates on Miscellaneous Commodities **from** points in Illinois, and points in

Iowa and Missouri located on West Bank of the Mississippi River; also Specific Commodity Rates from points in Illinois, Iowa and Missouri Pro-rating points to stations in the Central Freight Association Territory, East of the Illinois-Indiana State Line.

Proportional rates are published to apply on shipments of Lumber, from East St. Louis, Ill., and the Upper Mississippi River Crossings to points in the Central Freight Association Territory; also rates on Billets and Scrap Iron, from points in Illinois, Iowa and Missouri, Switz City, Ind., to Central Freight Association points. Still another commodity tariff provides rates on Stoneware, from Macomb, Monmouth, Roodhouse and Whitehall, Ill., to stations in Illinois, Indiana, Iowa and Missouri.

Bridge Tolls applying at the Upper Mississippi River Crossings constitute another tariff which is published by the Western Trunk Line Committee.

Having outlined, in a general way, the different traffic flows that are dealt with by this committee, and which determine the manner in which the published rates are divided into separate tariffs, we will now take up these publications individually, together with their application and serial numbers.

CHAPTER II.

APPLICATION OF TARIFFS APPLYING WITHIN THE CENTRAL FREIGHT ASSOCIATION TERRITORY, PUBLISHED BY THE INDIVIDUAL CARRIERS.

In addition to the tariffs published by the Central Freight Association, the Western Trunk Line Committee, the Chicago & Ohio River Freight Committee, the St. Louis East Bound Committee, the St. Louis, Louisville, Cincinnati Committee, the Southern Freight Association, the Illinois Freight Committee and the Ohio Coal Traffic Association, applying within the Central Freight Association, the Individual Carriers publish a large number of Class and Commodity Tariffs, governing the movement of shipments within the Central Freight Association Territory, not subject to the jurisdiction of the Agency Tariffs, previously referred to.

In a work of this character, there are so many tariffs published that specific reference to each cannot be given. However, it is possible to show the application of the principal tariffs published by the individual carriers, applying within the Central Freight Association Territory. It will be noted that, in some instances, a number of the smaller lines do not publish any joint tariffs, but are made parties to the tariffs issued by their immediate connections, and that these tariffs name rates from the stations located on the rails of the smaller lines. In order to determine what tariff to use on a given shipment, the alphabetical list of stations given in the Official Railway Guide

should be consulted, as this will show the Railroad on which the point of origin is located. All that is then necessary is to consult the tariffs of the railroad upon which the shipment originates, or its connection. In this manner it can be determined whether or not through rates are published. If no **through rates** are published, the lowest **combination** is the legal rate.

The list of railroads here given is arranged in alphabetical order, and the application of the tariffs and the manner of their publication are given under each road.

§ 1. The Ann Arbor Railroad.

The following is a review of the tariffs published by the Ann Arbor Railroad, applying within the Central Freight Association Territory.

(1) **Class Rates, from** stations on the lines of the Ann Arbor Railroad, **to** points in the Central Freight Association Territory.

(2) **Class Rates, from** stations on the line of the Ann Arbor Railroad, **to** points west of the Indiana-Illinois State line; also **to** points in Iowa and Missouri located on the west bank of the Mississippi River.

(3) **Class Rates** (Proportional), **from** stations on the line of the Ann Arbor Railroad, **to** the Mississippi River Crossings.

(4) **Commodity Rates, Miscellaneous, from** stations on the line of the Ann Arbor Railroad, **to** points in the Central Freight Association Territory.

(5) **Billets, Pig Iron, Rails, Scrap Iron, and Other Iron and Steel Articles, Carloads** (Rates on), **from** stations on the line of the Ann Arbor Railroad, **to** points in the Central Freight Association Territory.

(6) **Charcoal, Carloads** (Rates on), **from** Cadillac,

Mich., to points in the Central Freight Association Territory.

(7) **Chloride of Calcium, Carloads** (Rates on), **from** Mt. Pleasant, Mich., **to** points in the Central Freight Association Territory.

(8) **Live Stock** (Rates on), **from** stations on the line of the Ann Arbor Railroad, **to** Buffalo, N. Y., Detroit, Mich., Pittsburgh, Pa., and Toledo, Ohio; also Mileage Rates on Live Stock to Central Freight Association Points.

(9) **Lumber, Laths, Shingles, Flooring, and Articles Taking Same Rates** (Rates on), **from** stations on the line of the Ann Arbor Railroad, **to** points in the Central Freight Association Territory.

(10) **Sugar, Carloads** (Rates on), **from** Alma, Owosso, Mich., and Toledo, Ohio, **to** points in the Central Freight Association Territory.

§ 2. Akron, Canton and Youngstown Railway.

Class and Commodity Rates are published by the Akron, Canton and Youngstown Railway, applying **from** points on its line **to** points in Central Freight Association Territory.

§ 3. Arcadia and Betsey River Railway.

There are no through rates published **from** points on this line, applying on Interstate Traffic. Through rates are made on the lowest combination. The Arcadia and Betsey River Railway Company publishes rates on various commodities, applying **between** points on its own line.

(1) **Class Rates and Rates on Lumber from** points on this line **to** points in the State of Michigan (Lower Peninsula), are published in Central Freight Association Tariff 175 Series.

§ 4. Ashland and Western Railway.

Class and Commodity Rates from points on this line **to** points in Central Freight Association Territory, are published by the Pennsylvania Railroad Co.

(3) **Brick, Carloads, and Commodities Taking Same Rates, from** points on the Wabash Pittsburg Terminal Ry., **to** points in Central Freight Association Territory.

(4) **Cement, from** Pittsburg and Universal, Pa., **to** points in Central Freight Association Territory.

(5) **Iron (Pig) Billets, Scrap Iron, and Commodities Taking Same Rates, Also Articles of Iron and Steel Manufacture, Carloads and L. C. L., from** stations on the Wabash Pittsburg Terminal Ry., **to** points in Central Freight Association Territory.

§ 96. Youngstown and Ohio River Railroad.

Class and Commodity Rates, from points on this line, **to** points in the Central Freight Association Territory, are published by the Erie Railroad.

§ 97. Zanesville and Western Railway.

Class and Commodity rates, **from** points on this line, **to** points in Central Freight Association Territory, are published by the Ohio Central Railroad and the Zanesville and Western Ry.

In addition to the tariffs given, the coal producing railroads publish tariffs naming rates **from** coal producing points, **to** Central Freight Association Territory.

The Steamboat Lines operating within Central Freight Association Territory, publish Class and Commodity Rates applying between the ports from and to which they operate and also publish Class and Commodity Rates, Rail and Water, applying in connection with Steam Railroad and Electric Lines. The following examples show the manner in which these rates are published:

§ 98. Chicago and South Haven Steamship Company publishes Class Rates **from** South Haven, Mich., **to** points on the various lines operating within the State of Illinois; also to points in Indiana. This Company also publishes:

(1) **Class Rates from** Chicago, Ill., **to** points in Michigan and Ohio.

(2) **Class and Commodity Rates between** Chicago, Ill., and South Haven, Mich.

(3) **Class Rates from** Chicago, Ill., **to** stations on the Michigan Central Railroad (West of Detroit River), Kalamazoo, Lake Shore and Chicago R. R., and Grand Rapids and Indiana Ry.

(4) **Class and Commodity Rates between** Chicago, Ill., and Saugatuck, Glenn Pier, Douglas and Pier Cove, Mich.

§ 99. **The Goodrich Transit Company** publishes Class Rates **from** Chicago, Ill., **to** stations in Michigan, Ohio and Wisconsin; also:

(1) **Class and Commodity Rates between** Chicago, Ill., and Milwaukee, Racine, Wis.

§ 100. **The Graham and Morton Transportation Company** publishes Class Rates **between** Chicago, Ill., and Dowagiac, Mich.; also:

(1) **Class Rates from** Benton Harbor, Holland and St. Joseph, Mich., **to** points in Illinois, Indiana, Iowa, Kentucky, Missouri, Ohio and Wisconsin.

(2) **Class and Commodity Rates between** Chicago, Ill., and Benton Harbor, Holland and St. Joseph, Mich.

(3) **Class Rates from** Chicago, Ill., **to** points in Indiana, Kentucky, Michigan and Ohio, located on Steam Lines.

(4) **Class and Commodity Rates between** Chicago, Ill., and points in Indiana and Michigan, located on the Benton Harbor-St. Joseph Railway and Light Co., Chicago, South Bend and Northern Indiana Ry., Grand Rapids, Holland and Chicago Ry., and Southern Michigan Railway.

§ 101. **The Northern Michigan Transportation Company** publishes Class Rates applying **between** Chicago, Ill., and

Boyne City, Charlevoix, Cheboygan, East Jordan, Frankfort, Glen Haven, Harbor Springs, Ironton, Leland, Ludington, Mackinac Island, Manistee, North Manitou Island, Northport, Old Mission, Omena, Onekama, Pentwater, Petoskey, St. Ignace, St. James, Sault Ste. Marie, South Arm, Suttons Bay and Traverse City, Mich.

§ 102. The Detroit and Cleveland Navigation Company publishes Class Rates **from** Buffalo, N. Y., and points taking same rates, **to** stations in Michigan, Indiana, Illinois and Ohio; also Class Rates **from** Buffalo, N. Y., and points taking same rates, **to** stations on the Wabash R. R.; also:

Through Rates on Billets, Pig Iron and Articles Taking Same Rates, from Buffalo, N. Y., and Buffalo Rate Points, **to** points in Michigan, Indiana, Illinois, Ohio and Wisconsin.

§ 103. The Detroit and Buffalo Steamboat Company publishes rates **from** Buffalo, N. Y., **to** stations on the Wabash R. R.

The foregoing give a general outline of how the rates are published by the Boat Lines operating within Central Freight Association Territory. A further review is impracticable, as in a work like this it is impossible to give the application of each and every tariff naming rates and applying within the Central Freight Association Territory. Furthermore, there are so many tariffs published, applying within the Central Freight Association Territory, that it would not be possible to give specific reference to each tariff containing rates. An effort has been made, however, to give the application of the principal tariffs applying within this territory. The manner of publication of tariffs, not referred to, is similar, in every respect, to the applications given under this Chapter.

Thus sufficient information has been given to enable any man, of ordinary intelligence, to locate the tariff naming the legal rate.

Insofar as known, the information contained in this Volume has never been published in a similar manner, and care has been taken to make the work as accurate as possible, bearing in mind the fact that many changes are being made in tariffs, and that the Interstate Commerce Commission are daily making rulings and handing down decisions that affect, one way or another, the present rate structures of the country; also that tariffs are being changed from time to time, to suit conditions.

It should be understood that, although numerous changes are made in the rates themselves, the method of publishing tariffs does not change; and once familiarity is gained with the manner in which the tariffs are published, there should be no trouble in locating the proper tariff to use in making a shipment.

It must, however, be distinctly understood that many tariffs of the present day are very complicated, and require careful reading for correct interpretation; also that Specific Commodity Rates and Exceptions to Classification must be eliminated, before the Class Rates, published in the various tariffs, can be used.

CHAPTER III.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO TRUNK LINE AND NEW ENGLAND TERRITORIES.

§ 1. Tariffs published by the Central Freight Association.
§ 2. Tariffs published by St. Louis East Bound Committee.
§ 3. Tariffs published by the Individual Carriers.
§ 4. Application of Tariffs Fast Freight Line East Bound Guide Books and Billing Instructions, from Central Freight Association Territory and Western Points, to Trunk Line and New England Territories.
§ 5. Application of Water and Rail tariffs, from Central Freight Association Territory, to Trunk Line and New England Territories.

CHAPTER III.

APPLICATION OF ALL RAIL TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO TRUNK LINE AND NEW ENGLAND TERRITORY.

Through rates from Central Freight Association points to Trunk Line and New England basing points, are published in tariffs issued by the Central Freight Association, the St. Louis East Bound Committee and the individual carriers as follows:

§ 1. Tariffs Published by the Central Freight Association.

The Central Freight Association publishes Class and Commodity Rates applying **from** Milwaukee, Manitowoc, Green Bay, Wis., and stations in Illinois and Wisconsin taking same rates, also Class Rates from Marinette, Wisconsin, and points taking same rates, **to** Trunk Line and New England Territories. These rates are published in Tariff No. 41 series.

The Central Freight Association publishes rates on Lumber and other Forest Products, **from** De Pere, Green Bay and Marinette, Wis., Menominee, Mich., Oconto and Peshtigo, Wis., **to** Trunk Line and New England Territory, in Tariff 153 series.

§ 2. Tariffs Published by the St. Louis Eastbound Committee.

The St. Louis East Bound Committee publishes Class and Commodity Rates applying **from** St. Louis, Mo., East St. Louis, Ill., Cairo, Gale, and Thebes, Ill., and points

taking same rates; also proportional rates from the upper Mississippi River Crossing, to Trunk Line and New England Territories. These rates are published in Tariff No. 300 series. The St. Louis East Bound Committee also publishes rail, lake and rail rates from St. Louis, Mo., East St. Louis, Cairo, Gale, and Thebes, Ill., and points taking same rates; also from the upper Mississippi River Crossing, to Trunk Line and New England Territories, in Tariff No. 301 series. Ocean and rail rates from the same point to Oregon to Trunk Line and New England Territories, in Tariffs 302 and 303 series. Also rail lake and rail rates on copper, pig lead, ore spelter, zinc and articles taking same rates, in Tariff 305 series.

§ 3. Tariffs Published by the Individual Carriers.

Practically all other rates, not contained in the tariffs referred to above, are published by the individual carriers, and in very much the same manner as the tariffs published applying within Central Freight Association Territories, the exception being that there are not so many specific commodity rates published. For Example: The Erie Railroad Co. publishes class rates from points on that line west of Salamanca, N. Y., to Trunk Line and New England Territory basing points, in Tariff 149 series. Miscellaneous Commodity Rates, in Tariff No. 150 series.

The Erie Railroad also published tariffs containing the following specific commodities:

(1) Grain and Grain Products, from Erie Railroad Stations, to Trunk Line and New England Territories.

(2) Grain, Grain Products and By-Products, from Erie Railroad Stations, to Trunk Line New England Territories, in Tariff No. 155 series.

(3) Grain, Grain Products and By-Products, from Erie

Railroad Stations, to points in Maine and Vermont, in Tariff No. 178 series.

(4) **Petroleum and Petroleum Products, Carloads, from** Chicago, Ill., Cincinnati, Ohio, Cleveland, Ohio, Franklin, Pa., Indianapolis, Ind., Lima, Ohio, Mansfield, Ohio, Oil City, Pa., Whiting, Ind., Youngstown, Ohio, and points taking same rates, to Trunk Line and New England Territories basing points, in Tariff No. 144 series.

(5) **Live Stock, Meats, Packing House Products, Provisions, Carloads, from** stations on Erie Railroad, to points in Trunk Line and New England Territories, in Tariff 164 series.

The Toledo, St. Louis & Western Railroad Co. includes the class rates and miscellaneous commodities in the same tariff. Many of the roads, publishing rates from Central Freight Association to Trunk Line and New England Territories, publish their tariff in this manner; and these tariffs also contain rail and water rates and rates to the eastern ports, applying on export traffic. The Toledo, St. Louis and Western Railroad serial number on the tariff referred to, is 510.

This explanation of the manner of publication of tariffs applying from Central Freight Association to Trunk Line and New England Territories, should readily enable the location of tariff naming the legal rate.

§ 4. Application of Tariffs; Fast Freight Line Eastbound Guide Books from Central Freight Association Territory to Trunk Line and New England Territories.

There are through rates from Central Freight Association Territory, to the basing points in Trunk Line and New England Territories, applying via the various all-rail and water-and-rail routes. The rates to points in

these territories, other than the basing points, are ascertained by consulting the Eastbound Guide Books and Billing Instructions of the various Fast Freight Lines, each of which contains an alphabetical list of the destination points accessible via the particular Fast Freight Line of which it treats, showing, also, the Group in which each such point is located, and the Basing Point in each Group.

In addition to showing the bases of rates to practically all points in Trunk Line and New England Territories, the Fast Freight Line Guide Books also show, in many instances where no through rates are published, the "arbitraries," or amounts which must be added to, or subtracted from, the basing rate, to compute the rate to a point to which no through rates are published. For example, we will take the case of a shipment moving from Chicago, Ill., to Lake Denmark, N. J.—a station on the Wharton & Northern Railroad to which no through rates are published. By referring to the Eastbound Guide Book of the Grand Trunk Railway System, it will be found that Lake Denmark, N. J., is in the New York Rate Group, of which New York City is the Basing Point, and that an arbitrary must be added to the rate from Chicago to New York, in order to make up the through rate from Chicago to Lake Denmark, N. J.

In computing a rate from Chicago, Ill., to Fitchburg, Mass., it will be found, upon referring to the tariff of the Grand Trunk Railway System naming rates from Chicago to points in Trunk Line and New England Territories, that no through rates are shown to Fitchburg, Mass. The tariff does, however, show rates from Chicago to Boston, Mass., and by consulting the Eastbound Guide Book of the Grand Trunk Railway System, we find that Fitchburg is a Boston Rate Point—or, in other words, is in the Boston

Rate Group—and takes the same rates as those which apply from Chicago to Boston.

After showing the manner in which tariffs containing rates from Central Freight Association Territory to Basing Points in Trunk Line and New England Territories are published, and their application, we shall then give a list of the various Fast Freight Lines' Eastbound Guide Books, or Billing Instructions, showing by whom each is published. Following that will be given, in alphabetical order, a list of the railroads that terminate traffic in Trunk Line and New England Territories—and under each road will be shown the Fast Freight Lines, over which such shipments may be routed.

To determine which Fast Freight Line's Guide Book to use in computing a rate, you should first refer to the alphabetical list of stations, contained in the Official Railway Guide, which will show the line or lines which reach the point of destination in which you are interested. Then turn to the alphabetical list of railroads shown in this Chapter, as handling traffic from Central Freight Association Territory to Trunk Line and New England Territories, and find that particular road, and you will also find, listed beneath it, the Fast Freight Line whose Eastbound Guide Book will furnish you the information you desire. In no case, however, can the rules or other information contained in a Fast Freight Line Guide Book, or Billing Instructions, be used in connection with any tariff which does not make specific reference thereto. The tariff invariably contains a list of the Guide Books, if any, which may be used in conjunction with it.

The following is a list of the various Fast Freight Line Eastbound Guide Books and Billing Instructions showing the name of the official issuing them:

§ 5. Application of water and rail tariffs from Central Freight Association Territory to Trunk Line and New England Territories.

Through lake-and-rail rates from points in Central Freight Association Territory are, at the present time, being subjected to general modifications and revisions due to the fact that the Interstate Commerce Commission has decided that the operation of the lake lines by a rail carrier is in conflict with the provisions of Section 5 of the Act to Regulate Commerce as amended by the Panama Canal Act of August 24, 1912, and such decision has led to the separation, with one or two minor exceptions, of the lake lines and the railroad corporations.

Independent lake lines, which have taken over many of the old railway boat lines, are now in operation, and have established, to a certain extent, through lake-and-rail rates from points in Central Freight Association Territory.

Under the present stage of development, however, it is

not considered expedient to attempt to show the definite application of lake-and-rail tariffs, which can only be done after the independently operated lines have made complete arrangements to cover the entire lake-and-rail situation in the same effective manner as governed the application of such tariffs prior to the divorcement of the lake lines from the rail carriers.

CHAPTER IV.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO CANADIAN FREIGHT ASSOCIATION TERRITORY. ALSO TO WINNIPEG AND THE CANADIAN NORTHWEST.

§ 1. Application of tariffs from Central Freight Association Territory, to Canadian Freight Association Territory.
§ 2. Application of tariffs from Central Freight Association Territory, to Winnipeg and Canadian Northwest; also to points in Western portion of the Province of Ontario.

CHAPTER IV.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO CANADIAN FREIGHT ASSOCIATION TERRITORY.

§ 1. Application of Tariffs from Central Freight Association Territory.

Through Rates are published from Central Freight Association Territory, to the basing points in Canadian Freight Association Territory.

The tariffs issued by the Western Trunk Line Committee, naming rates within Central Freight Association Territory, also name rates from the same points of origin in Central Freight Association Territory, to the basing points in the Western portion of Canadian Freight Association Territory.

Tariff 400 Series, issued by the St. Louis Eastbound Committee, and naming rates from St. Louis and points taking same rates, and proportional rates from Upper Mississippi River Crossings to Central Freight Association points, also names rates to the basing points in the Western portion of the Canadian Freight Association Territory.

Tariff 300 Series, published by the St. Louis Eastbound Committee, naming rates from East St. Louis, Ill., St. Louis, Mo., and points taking same rates to Trunk Line and New England Territory, also contains rates to the basing points in the Eastern portion of Canadian Freight Association Territory.

The tariffs of the Individual Carriers applying within Central Freight Association Territory, also contain Class and Commodity Rates applying to the basing points in

Western portion of Canadian Freight Association Territory.

The tariffs of the Individual Carriers naming rates from Central Freight Association Territory to Trunk Line and New England Territory, also contain rates to the basing points in the Eastern Portion of Canadian Freight Association Territory.

In order to determine the rates to points in Canadian Freight Association Territory, other than basing points, it is necessary to use, in connection with the tariffs naming rates to the basing points, the East Bound Guide Books of the various carriers operating in conjunction with the Canadian lines. These East Bound Guide Books are to be used in precisely the same manner as shown under the application of tariffs from Central Freight Association Territory to Trunk Line and New England Territory.

The following list of Railways terminating business in Canadian Freight Association Territory, also the names of the various East Bound Guide Books containing a basis for through rates, constitute a useful guide in the application of these rates:

Through rates are published on sewer pipe, carloads, from points in Indiana, Ohio, and West Virginia, to points in the Canadian Northwest in Central Freight Association Tariff No. 154 series.

Through rates on sewer pipe, carloads, from East St. Louis, Galesburg, Hopewell, Macomb, Monmouth, Streator, Whitehall, Ill., also St. Louis, Mo., are published, applying to points in British Columbia, Manitoba, Saskatchewan and Alberta in Western Trunk Line Tariff 72 series.

Through Rates on Vitrified Segment Blocks, from points in Ohio, to points in Canada, are published by the Central Freight Association, in Tariff 170 series.

Except as provided for above, there are no through rates to points in the Canadian Northwest from Central Freight Association Territory. Combination rate is made on Minnesota Transfer, St. Paul, or Duluth, by using the tariffs shown under Sec. 1 of Chapter VI, to the points designated, and the rates as published by the individual carriers operating from Minnesota Transfer, St. Paul, or Duluth to the Canadian Northwest.

CHAPTER V.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO SOUTHEASTERN AND CAROLINA TERRITORIES, INCLUDING TERRITORY SOUTH OF THE WALLHALLA LINE, ATLANTA AND MONTGOMERY SUBDIVISIONS. ALSO TO MISSISSIPPI VALLEY TERRITORY AND POINTS IN KENTUCKY, NOT OTHERWISE PROVIDED FOR.

§ 1. From Central Freight Association to Carolina Territory.
§ 2. From Central Freight Association Territory to Southeastern Territory.
§ 3. Application of tariffs from Central Freight Association Territory to Mississippi Valley Territory.
§ 4. Application of tariffs from Central Freight Association Territory to points in Kentucky, not provided for under other sections.

CHAPTER V.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO SOUTHEASTERN AND CAROLINA TERRITORIES, INCLUDING TERRITORY SOUTH OF THE WALLHALLA LINE, ATLANTA AND MONTGOMERY SUBDIVISION.

§ 1. From Central Freight Association to Carolina Territory.

Through Class and Commodity Rates are published **from** points in Central Freight Association Territory, **to** points in Carolina and Southeastern Territory. From other points in Central Freight Association, no through rates are published to Carolina and Southeastern Territories and combination rates are made on Bristol, Tenn., the Ohio River Crossings or the Virginia Cities.

Through Rates. We will now take up the application of tariffs, naming through rates to Carolina and Southeastern Territory, and follow with the application of tariffs used to make combination rates. We will first take up the application of tariffs to Carolina Territory, as follows:

(1) **Through Class and Commodity Rates** are published **from** Pittsburgh, Pa., Wheeling, W. Va., and points taking same rates, **to** points in Tennessee, Virginia, North Carolina, South Carolina and Georgia, located in Carolina Territory, by the Central Freight Association in their Tariff 145 series.

(2) **Through Miscellaneous Commodity Rates** are published **from** points in Ohio, Michigan, Indiana and Penn-

sylvania, to Carolina Territory, by the Central Freight Association, in Tariff 128 series.

(3) **Through Class and Commodity Rates, from** Buffalo, N. Y., Erie, Pa., Huntington, W. Va., Johnstown, Pa., Kenova, Parkersburg, West Virginia, Pittsburgh, Pa., Wheeling, West Virginia, Youngstown, Ohio, and points taking same rates, applying to points in Carolina Territory, are published by the Baltimore and Ohio R. R. Co. The tariff referred to contains All Rail and Rail and Water rates.

(4) **Through Class and Commodity Rates** are published **from** Buffalo, N. Y., Erie, Pa., Pittsburgh, Pa., Wheeling, W. Va., Johnstown, Pa., Connellsville, Pa., and points taking same rate, **to** Carolina Territory by the Pennsylvania Railroad Co. The title of the tariff is P. R. R. Buffalo-Pittsburgh Tariff, which names Through All Rail and Rail and Water rates.

(5) **Through Class and Commodity Rates** applying **from** Buffalo, N. Y., Pittsburgh, Pa., Connellsville, Pa., and points taking same rates, are published by Philadelphia and Reading Railway, **to** Carolina Territory. The title of the tariff is P. & R. Ry. Buffalo-Pittsburgh Tariff. This tariff names **Through All Rail** rates.

(6) The Baltimore and Ohio R. R. Co., The Pennsylvania R. R. Co., and the Philadelphia and Reading Ry. Co. publish rates on Iron and Steel Articles and other Commodities, applying **from** Buffalo, N. Y., Erie, Pa., Pittsburgh, Pa., Wheeling and other points in West Virginia, Johnstown and Connellsville, Pa., and points taking same rates, **to** Carolina Territory.

(7) **Through Class and Commodity Rates** are published **from** the Ohio and Mississippi River Crossings, and points taking same rates; also bases for rates from points in Illinois and Indiana, located on the Southern Railway, by

the Southeastern Mississippi Valley Freight Association, M. P. Washburn, Agt., in their Carolina Tariff.

(8) **Through Class and Commodity Rates** applying **from** Chicago, Ill., Indianapolis, Ind., Milwaukee, Wis., and points taking same rates, are published **to** Bristol, Tenn., Virginia (applying through the Ohio River Crossings), by the Ohio River Committee, C. E. Fulton, Agt., in Tariff 106 series.

(9) **Through Miscellaneous Commodity Rates from** Chicago, Ill., Green Bay, Wis., Indianapolis, Ind., Kenosha, Wis., Marinette, Wis., Menominee, Mich., Milwaukee, Wis., Racine, Wis., and stations taking same rates in Illinois, Indiana, Iowa, Michigan and Wisconsin, **to** points in Carolina Territory, are published by C. E. Fulton, Agt. of the Ohio River Committee, in Tariff 107 series.

(10) **Through Class and Commodity Rates from** Cincinnati, Norwood, Portsmouth and other Ohio points, **to** Carolina Territory, are published in Kanawha Despatch Eastbound Tariff. The Kanawha Despatch also publishes rates **from** Ashland, Covington, Lexington, Louisville, Newport and other Kentucky points, **to** Carolina Territory.

(11) **Through Rates Applying on Automobiles, Locomobiles or Other Self-Propelled Vehicles** (passenger or freight), **from** Chicago, Ill., Dubuque, Ia., Galesburg, Ill., Indianapolis, Ind., Milwaukee, Wis., Peoria, Ill., Rockford, Ill., South Bend, Ind., Springfield, Ill., and points taking same rates, **to** points in Carolina Territory, are published by C. E. Fulton, Agt. of the Ohio River Committee, in Local, Joint and Proportional Tariff 113 series.

(12) **Through Rates on Oil, Petroleum and Its Products, Carloads, from** Chicago, Ill., and Whiting, Ind., **to** Carolina Territory, are published by C. E. Fulton, Agt. of the Ohio River Committee, in Tariff 110 series.

(13) **Through Rates Applying on Apples, Hides, Oil, Petroleum and Its Products, Carload, from** St. Louis, Mo., and points taking same rates, **to** Bristol, Tenn.-Va., are published by Agent Cameron of the St. Louis Eastbound Committee.

(14) **Through Rates on Hides (Green, Salted and Dry)** are published **from** St. Louis, Mo., East St. Louis, Ill., Alton, Ill., **to** points in Carolina Territory, by Agent Cameron of the St. Louis Eastbound Committee, in Tariff 300 series.

(15) **Through Rates Applying on Oil, Petroleum and Its Products, from** the Ohio and Mississippi River Crossings and points taking same rates, **to** Carolina Territory, are published in M. P. Washburn's Petroleum Tariff.

Generally speaking, all other rates applying from Central Freight Association to Carolina Territory, can be made on the lowest legal combination, when shipments are properly routed.

(2) **Comb. Rates.** We will now give examples of the use of the Ohio River, the St. Paul, Va., and the Virginia Cities combinations, as follows:

(16) The Ohio River Combination. Shipments originating at Chicago, Ill., Davenport, Ia., Indianapolis, Ind., Milwaukee, Wis., Peoria, Ill., and stations taking same rates, proportional rates to the Ohio River Crossings, are published by C. E. Fulton, Agt. of the Ohio River Committee, in Tariff 104 series. To these rates are to be added, to make through rates to Carolina Territory, the rates published from the Ohio River Crossings, in M. P. Washburn's Carolina Tariff.

(17) On shipments originating at Lake Michigan and Green Bay ports, proportional Class and Commodity rates are published to the Ohio River Crossings, by C. E. Fulton, Agt. of the Ohio River Committee, in Tariff 103

series. These rates are to be added to the rates published from the Ohio River Crossings to Carolina Territory, in M. P. Washburn's Carolina Tariff.

In making through rates **from** Central Freight Association Territory **to** Local points on the Louisville & Nashville Railroad, rates from the Ohio River Crossings are published in the following manner:

(18) **From** Evansville, Ind., in Louisville & Nashville R. R. Local Evansville Tariff.

(19) **From** Louisville, Ky., in Louisville & Nashville R. R. Local Louisville Tariff.

(20) **From** Cincinnati, Ohio, in Louisville and Nashville R. R. Cincinnati Local Tariff.

The rates shown in the tariffs referred to, are to be added to the rates published from Central Freight Association points to the Ohio River Crossings, to make through rates.

(21) **Joint and Proportional Rates Applying on Vehicles, Carload and Less than Carload, from** Toledo, North Toledo Yard and Wagon Works, Ohio, **to** the Ohio River Crossings, are published in Central Freight Association Tariff No. 151 series. To these rates are to be added, to make through rates to Carolina Territory, the rates published in M. P. Washburn's Carolina Tariff.

(22) From other points in Central Freight Association Territory, combination rates can also be made on the Ohio River Crossings, by using the Tariff shown under Chapter No. 2 to the Ohio River Crossings, and the rates as published in M. P. Washburn's Carolina Tariff from the Ohio River Crossings to Carolina Territory.

It should be distinctly understood, however, where Commodity Rates are published from the Ohio River Crossings to Carolina Territory, that the commodity tariff should be used in making through rates.

In making rates to points in Carolina Territory, where through rates are not provided for from the Ohio River Crossings to local points, the local rate from the nearest junction must be added to the rate from the Ohio River Crossing to such junction point, in order to make through rates.

(23) The St. Paul, Va., Combination. On shipments originating at points in Illinois, Iowa (Keokuk and Burlington), Indiana, Michigan, Missouri (Hannibal), and Wisconsin, through rates are published to St. Paul, Va., applying on traffic destined to Carolina Territory, by the Central Freight Association, in Tariff 137 series. To these rates are to be added the proportional rates applying from St. Paul, Va., to Carolina Territory, published by the Carolina, Clinchfield and Ohio Railway in their St. Paul Tariff.

(24) The Virginia Cities Combination. The Through Class and Commodity Rates from St. Louis, Mo., East St. Louis, Ill., Cairo, Gale and Thebes, Ill., and points taking same rates, also proportional rates from Upper Mississippi River Crossings, are published to the Virginia Cities in Agent Cameron's St. Louis Eastbound Committee Tariff No. 300 series.

(25) **Through Class and Commodity Rates** are published from points in Illinois, Iowa (Keokuk and Burlington), Indiana, Michigan, Missouri (Hannibal), and Wisconsin, to the Virginia Cities, applying as proportional rates on shipments destined to Carolina Territory by the Central Freight Association, in Tariff 137 series.

(26) **Proportional Rates Applying on Vehicles, Carload and Less than Carload, from** Toledo, North Toledo Yard and Wagon Works, Ohio, to the Virginia Cities, applying on traffic destined to Carolina Territory, are published by the Central Freight Association, in Tariff 151 series.

(27) **Through Rates on Petroleum and Petroleum Products from** Buffalo, N. Y.; East Buffalo, N. Y.; Erie, Pa.; Franklin, Pa.; Irvineton, Pa.; North Warren, Pa.; Oil City, Pa.; Raymilton, Pa.; Reno, Pa.; Titusville, Pa.; Van, Pa.; Warren, Pa., **to** points in Southeastern, Carolina and Mississippi Valley Territories are published by the Central Freight Association in Tariff 172 Series.

(28) The Individual Carriers originating traffic in Central Freight Association Territory, publish Class and Commodity Rates applying **from** their stations to Trunk Line and New England Territory. These tariffs also name rates to the Virginia Cities.

To the rates published to the Virginia Cities, as shown above, are to be added the proportional rates published **from** the Virginia Cities **to** Carolina Territory, in J. J. Cottrell's Carolina Basing Tariff, to make through rates.

§ 2. From Central Freight Association Territory to Southeastern Territory.

We will now take up the application of tariffs applying from Central Freight Association Territory, to Southeastern Territory. Through rates are published as follows:

(1) **Class and Commodity Rates** applying **from** Buffalo, N. Y., Erie, Pittsburgh, Pa., Wheeling, Parkersburg, Huntington, West Virginia, Ashland, Ky., Ironton, Portsmouth, Ohio, and points taking same rate, **to** Atlanta, Ga., Knoxville, Tenn., Macon, Ga., Montgomery, Ala., Nashville, Tenn., Savannah, Ga., and other basing points in Southeastern Territory, are published by the Central Freight Association in Tariff 112 Series. This Tariff contains All Rail and Rail and Water rates.

(2) **Miscellaneous Commodity Rates from** points in Ohio, Michigan, Indiana and Pennsylvania, **to** points in

Southeastern Territory, are published by the Central Freight Association in Tariff 128 series.

(3) **Class and Commodity Rates from** Buffalo, N. Y., Erie, Pa., Huntington, W. Va., Johnstown, Pa., Kenova, Parkersburg, W. Va., Pittsburgh, Pa., Wheeling, W. Va., Youngstown, Ohio, and points taking same rate, are published by the Baltimore and Ohio Railroad Co. The tariff naming these rates, referred to above, applies via All Rail or Rail and Water.

(4) **Class and Commodity Rates from** Buffalo, N. Y., Erie, Pa., Pittsburgh, Pa., Wheeling, W. Va., Johnstown, Pa., Connellsville, Pa., and points taking same rates, applying **to** points in Southeastern Territory, are published by the Pennsylvania Railroad Co. in their P. R. R. Buffalo-Pittsburgh Tariff, naming rates to local and junction points in the South and Southwest.

(5) **Classes and Commodities from** Buffalo, N. Y., Pittsburgh, Pa., Connellsville, Pa., and points taking same rates, are published by the Philadelphia and Reading Railway Co. in their P. & R. Ry. Buffalo-Pittsburgh Tariff, naming rates to local and junction points in the South and Southwest. The tariff referred to, names All Rail rates.

(6) **Through Class and Commodity Rates from** St. Louis, Mo., Chicago, Ill., Milwaukee, Wis., Streator, Peoria, Ill., Dubuque, Davenport, Burlington, Iowa, Springfield, Pana, Alton, Ill., Indianapolis, Terre Haute, Ind., and points taking same rates **to** stations on the Nashville, Chattanooga and St. Louis Ry., are published by the Southern Freight Association, in their Nashville, Chattanooga & St. Louis Ry. Tariffs 2 and 3 Series.

(7) **Through Rates on Iron and Steel Articles and Other Commodities** are published by the Baltimore and Ohio R. R. Co., The Pennsylvania Railroad Co. and the Philadelphia and Reading Railway Co., applying **from**

Buffalo, N. Y., Pittsburgh, Pa., and points taking the same rates, to Southeastern Territory.

(8) **Through Class and Commodity Rates, from** Ohio and Mississippi River Crossings, Lexington, Frankfort, Ky., St. Louis, Mo., East St. Louis, Ill., also bases for rates from stations on the Southern Railway in Illinois and Indiana to Southeastern Territory, are published by M. P. Washburn, Agent of the Southeastern Mississippi Valley Freight Association, in their Southeastern Tariff. This tariff names rates to the basing points in Southeastern Territory. Through rates to points other than basing points, are made by adding to the rates published from the Ohio River Crossings to the basing points, the rates published in M. P. Washburn's Southeastern Basis Book, which names rates from the basing points in Southeastern Territory. For example: If you had a shipment moving from Louisville, Ky., to Pelham, Ga., you would not find a through rate published from Louisville to Pelham, Ga. By referring to the Southeastern Basis Book you will find that rates are published from Albany, Brunswick, Thomasville, and River Junction, Fla., to Pelham, and these rates must be added to the rates published from Louisville in Washburn's Southeastern Tariff to the basing points named, to make through rates.

In making through rates to points in Florida, not provided for, by using Washburn's Southeastern Tariff and the Southeastern Basis Book, through rates are made on the Jacksonville combination. Also by using Washburn's Southeastern Tariff from the Ohio River Crossing to Jacksonville, and the Class and Commodity rates published from Jacksonville in Hinton's Florida Basis Book. For example: On a shipment moving from St. Louis, Mo., to Tampa, Fla., no through rates are published, and the rate will be made by the use of the rate published in Wash-

burn's Southeastern Tariff from St. Louis to Jacksonville, and the rate from Jacksonville to Tampa, published in Hinton's Florida Basis Book. The rates published from Jacksonville to Tampa are subject to the Florida Exceptions, as shown under Note 19 in the Southern Classification, which must be taken into consideration in making through rates.

(19) **Through Rates** are published on **Petroleum and Petroleum Products from** the Ohio and Mississippi River Crossings, **to** points in Southeastern Territory in M. P. Washburn's Petroleum Tariff.

Through Rates on Petroleum and Petroleum Products from Buffalo, N. Y.; East Buffalo, N. Y.; Erie, Pa.; Franklin, Pa.; Irvineton, Pa.; North Warren, Pa.; Oil City, Pa.; Raymilton, Pa.; Reno, Pa.; Titusville, Pa.; Van, Pa.; Warren, Pa.; **to** points in Southeastern, Carolina and Mississippi Valley Territories are published by the Central Freight Association in Tariff 172 Series.

(20) **Through Rates Are Published Applying on Miscellaneous Commodities from** Chicago, Ill., Green Bay, Wis., Indianapolis, Ind., Kenosha, Wis., Marinette, Wis., Menominee, Mich., Milwaukee, Wis., Racine, Wis., and other stations in Illinois, Indiana, Iowa, Michigan and Wisconsin, by C. E. Fulton, Agent of the Ohio River Committee, in Tariff 107 series.

(21) **Through Rates Applying on Petroleum and Petroleum Products, Carloads, from** Chicago, Ill., and Whiting, Ind., **to** Southeastern Territory, by C. E. Fulton, Agent of the Ohio River Committee, in Tariff 110 series.

(22) **Through Rates on Automobiles, Locomobiles or Other Self-Propelled Vehicles** (passenger or freight), **from** Chicago, Ill., Dubuque, Ia., Galesburg, Ill., Indianapolis, Ind., Milwaukee, Wis., Peoria, Ill., Rockford, Ill., South Bend, Ind., Springfield, Ill., and points taking

same rate, to points in Southeastern Territory, by C. E. Fulton, Agt. of the Ohio River Committee, in Tariff 113 series.

(23) **Proportional Rates Applying on Paper, Fruit Wrapping, Carloads, from** Milwaukee, Wis., **to** Jacksonville, Fla., via Rail and Ocean, are published by the Central Freight Association in Tariff 148 series.

(23) **Combination Rates.** The rates from all other points in Central Freight Association, generally speaking, to Southeastern Territory, are made on the Ohio River, or Nashville, Tenn., combination. We will now give examples of how these rates are made, starting with the Ohio River Combination.

(24) **Ohio River Combination.**

Class and Commodity Rates from Lake Michigan and Green Bay ports, **to** the Ohio River Crossings, are published by C. E. Fulton, Agent of the Ohio River Committee, in Tariff No. 103 series.

(25) **Class and Commodity Rates from** Chicago, Ill., Davenport, Ia., Indianapolis, Ind., Milwaukee, Wis., Peoria, Ill., and stations taking same rates, **to** the Ohio River Crossings, are published by C. E. Fulton, Agent of the Ohio River Committee, in Tariff 104 series.

(26) The individual carriers originating traffic in Central Freight Association Territory, publish Class and Commodity Rates to the Ohio River Crossings, in a similar manner to the rates published by them applying within the Central Freight Association Territory.

(27) **Bases for Rates on Classes and Commodities from** stations in Indiana, Michigan, New York (Western Portion), Ohio, Pennsylvania (Western Portion), and West Virginia, are published by the Central Freight Association in Tariff 85 series.

(28) Rates on vehicles, Carload and Less than Carload,

from Toledo, North Toledo Yard and Wagon Works, Ohio, applying on shipments destined to points in Southeastern Territory, are published by the Central Freight Association in Tariff 151 series.

(29) **From** the Ohio River Crossings **to** Southeastern Common and Basing points, the rates are published in M. P. Washburn's Southeastern Tariff.

To make through rates to local and junction points in Southeastern Territory, the rates published in M. P. Washburn's Southeastern Basis Book must be added to the rates published from the Ohio River Crossings in M. P. Washburn's Southeastern Tariff.

(30) Through rates to points in Florida (not provided for by the use of Washburn's Southeastern Tariff and Washburn's Southeastern Basis Book), are made on the Jacksonville combination by using M. P. Washburn's Southeastern Tariff from the Ohio River to Jacksonville and the rates from Jacksonville to the various destinations in Florida, which must be added together to make through rates.

(31) In using the Ohio River Combination to local points on the Louisville and Nashville Railroad, rates from the Ohio River are published in the following manner:

(A) **Class and Commodity Rates from** Evansville, Ind., are published in Louisville and Nashville Railroad (Evansville to local points) Tariff.

(B) **Class and Commodity Rates from** Louisville Ky., **to** Louisville and Nashville stations, are published in L. & N. (Louisville to local points) Tariff.

(C) **Class and Commodity Rates from** Cincinnati, Ohio, **to** Louisville and Nashville stations are published in L. & N. Cincinnati to local points tariff. The rates shown in these tariffs should be added to the rates published from Central Freight Association Territory to the Ohio River

Crossings, to make through rates to local points on the Louisville and Nashville Railroad located in Southeastern Territory.

(32) **The Nashville, Tennessee, Combination.**

This combination can be taken advantage of on shipments originating in the Eastern portion of Central Freight Association Territory. For example:

Through Class and Commodity Rates are published **from** Pittsburgh, Pa., **to** Nashville, Tenn., in Central Freight Association Tariff 145 series.

Class and Commodity Rates from Nashville **to** basing points in Southeastern Territory, are published in M. P. Washburn's Southeastern Tariff. The rates published in the tariffs referred to above are added together to make through rates. Rates to local and junction points in Southeastern Territory, also to points in Florida, are made in a similar manner to that shown under the heading "The Ohio River Combination."

In accordance with Interstate Commerce Commission 4th Section Order 3866 the Southeastern Freight Association, Mr. M. P. Washburn, Agent, has in preparation tariffs applying from the Ohio and Mississippi River Crossings, St. Louis, Mo., and points taking same rates, to Southeastern Territory, and which will become effective on January 1st, 1916.

These tariffs will cancel in part the current Southeastern Tariff and Southeastern Basis Book. The following are the numbers of the tariffs and their application:

Freight Tariff No. 1.—Southeastern Class Tariff.

This tariff will contain rates on **Classes** from Ohio and Mississippi River Crossings, Nashville, Tennessee, and Gulfport to all junction points in Southeastern Territory

Freight Tariff No. 4.—Southeastern Short Roads Basing Tariff.

This tariff will contain a basis for rates on **Classes** and **Commodities** from same points of origin as Freight Tariff No. 1 to all local points in Southeastern Territory not carried in Freight Tariff No. 1.

The current Southeastern Tariff will continue for the present such rates as have not been transferred to the tariffs referred to. **Classes** 5, 6 and A will be continued in this tariff to all points to apply on Paper and Paper bags.

The current Southeastern Basis Book will be continued in effect to be used in connection with other tariffs which have not yet been revised in accordance with Fourth Section order No. 3866.

On and after January 1st, the method of publication of

tariffs from the Ohio and Mississippi River Crossings will be as outlined, and the Class and Commodity rates will be carried in the tariffs previously referred to.

§ 3. Application of Tariffs from Central Freight Association Territory to Mississippi Valley Territory.

There are through rates published **from** points in Central Freight Association Territory, **to** points in Mississippi Valley Territory.

(1) **Through Rates** are published **to** the Mississippi River points.

(2) **Through Rates** are published **from** points West of the Indiana-Illinois State Line, also **from** the Western Termini of Trunk Line points, also through commodity rates **from** points in Central Freight Association, **to** Interior Mississippi Valley Common and Junction points.

(3) **Through Rates** are published **from** points West of the Indiana-Illinois State Line, also **from** points in Indiana and the Ohio River Crossings, **to** Local Stations on the Nashville, Chattanooga and St. Louis Ry.

(4) **Through Rates** are published **from** various other points in Central Freight Association Territory, **to** other Mississippi Valley points.

The following is the application of the tariffs, showing through rates and explaining how to make rates when no through rates are published.

(5) **Through Rates,** both Class and Commodity, are published **from** Central Freight Association Territory, East of the Indiana-Illinois State Line, to Memphis, Tenn., New Orleans, La., Mobile, Alabama, Pensacola, Fla., Helena, Ark., Gulfport, Natchez, Vicksburg, Miss., and other Lower Mississippi River, Alabama and Louisiana points, by the Central Freight Association in Tariff 15 series.

(6) **Through Class and Commodity Rates from** Indianapolis, Vincennes, Ind., and points in Indiana taking same rate, are published, applying to Hickman, Ky., Memphis, Tenn., Jackson, Meridian, Miss., Pensacola, Fla., Paducah, Ky., New Orleans, La., and points taking same rates or taking arbitraries over the New Orleans rate, by the Mississippi Valley Freight Committee in Tariff 108 series.

(7) **Through Class and Commodity Rates** applying **from** Chicago, Ill., Milwaukee, Wis., Peoria and Springfield, Ill., and points taking same rate, including prorating points in Iowa and Missouri, **to** Hickman, Ky., Memphis, Tenn., Jackson, Miss., Meridian, Miss., Pensacola, Fla., New Orleans, La., and points taking some rate, are published by the Mississippi Valley Freight Association, in Tariff 108 series.

This tariff also names rates on Sulphuric Acid, in Tank Cars, **from** Chicago, Ill., and Milwaukee, Wis., **to** Hattiesburg, Laurel and Newton, Miss. Also rates on Tankage, Dried Blood and Dried Sheep Manure, Carloads, **from** Chicago, Ill., Milwaukee, Wis., **to** Columbia, Ellisville, Hattiesburg, Laurel, Lumberton and Newton, Miss.

PROPORTIONAL RATES TO THE MISSOURI RIVER CROSSINGS ON SHIPMENTS DESTINED TO POINTS IN IDAHO, MONTANA, OREGON AND WASHINGTON; ALSO PROPORTIONAL RATES TO DULUTH, MINN., ON TRAFFIC DESTINED TO POINTS IN THE CANADIAN NORTHWEST. ALSO TO MADISON, JANESVILLE, BELOIT AND OTHER WISCONSIN POINTS.

§ 1. Application of tariffs from Central Freight Association Territory, to St. Paul, Duluth, Winona and the Common Points, proportional rates to Missouri River Crossings, etc.

§ 2. Application of tariffs naming rates from Central Freight Association points, to Madison, Janesville, Beloit and other points in Wisconsin.

CHAPTER VI.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO ST. PAUL, DULUTH, WINONA AND THE COMMON POINTS; ALSO TO POINTS IN ILLINOIS (NOT IN CENTRAL FREIGHT ASSOCIATION TERRITORY), MINNESOTA, WISCONSIN AND MICHIGAN (UPPER PENINSULA); ALSO TO POINTS IN MINNESOTA TO WHICH NO THROUGH RATES APPLY. PROPORTIONAL RATES TO THE MISSOURI RIVER CROSSINGS ON SHIPMENTS DESTINED TO POINTS IN IDAHO, MONTANA, OREGON AND WASHINGTON; ALSO PROPORTIONAL RATES TO DULUTH, MINN., ON TRAFFIC DESTINED TO POINTS IN THE CANADIAN NORTHWEST. ALSO TO MADISON, JANESVILLE, BELOIT AND OTHER WISCONSIN POINTS.

§ 1. Application of Tariffs from Central Freight Association Territory to St. Paul, Duluth, Winona and the Common Points, Proportional Rates to Missouri River Crossings, etc.

The through class and commodity rates from Central Freight Association Territory, East of the Indiana-Illinois State Line, except where shown under the specific tariff applications given, applying to St. Paul, Duluth, Winona and the Common Points, are published by the Central Freight Association. The tariffs referred to, with but few exceptions, contain proportional rates to Duluth, applying on traffic destined to points in the Canadian Northwest. Also proportional rates to the Missouri River Crossings, applying on traffic destined to points in Idaho, Montana, Oregon and Washington.

The tariffs applying from points in Central Freight Association Territory, West of the Indiana-Illinois State

Line, including points in Indiana taking Chicago rates, also points in Iowa and Missouri located on the West bank of the Mississippi River to St. Paul, Duluth, Minnesota Transfer, Minneapolis, Winona and the Common Points, are published by the Western Trunk Line Committee and the Individual Carriers. We will now show the application of the tariffs published by the Central Freight Association, also the application of the tariff published by the Western Trunk Line Committee.

The following is a description of the application of tariffs published by the Central Freight Association, applying on shipments originating east of the Indiana-Illinois State Line. The tariffs published by the Central Freight Association do not apply from points in Indiana taking Chicago rates; these rates are published by the Western Trunk Line:

(1) **Class Rates.** Through class rates from stations in Illinois, Indiana, Kentucky, Maryland, Michigan, Ohio, Western New York, Western Pennsylvania, West Virginia, also Ontario, Canada, to Algoma, Wis., Duluth, Minn., Hancock, Mich., Houghton, Mich., Marinette, Wis., Marquette, Mich., Michigamme, Mich., New London, Wis., St. Ignace, Mich., St. Paul, Minn., Sheboygan, Wis., Winona, Minn., and points taking same rates in Illinois, Minnesota, Wisconsin and Michigan (Upper Peninsula), are published in Central Freight Association Tariff No. 12 series.

(2) **Special Application Tariff.** The Central Freight Association, in their commodity tariffs, publish rates to basing points, and this Special Application Tariff is to be used in connection with tariffs giving reference to it, and giving specific application of rates to be used in connection with the commodity tariffs published by the Central Freight Association.

§ 2. Application of Tariffs Naming Rates from Central Freight Association Points to Madison, Janesville, Beloit and Other Points in Wisconsin.

Through Class Rates **from** Central Freight Association Territory **to** Beloit, Madison, Janesville, and other Wisconsin points, are published by the Central Freight Association in Tariff No. 12 series, and through miscellaneous Commodity Rates in Tariff No. 105 series. Many of the other tariffs issued by the Central Freight Association in naming rates from points east of the Illinois-Indiana State Line to St. Paul, Duluth, Winona and the Common Points contain commodity rates to Madison, Janesville, Beloit, etc. Where no through rates are in effect, rates are made on the lowest combination.

CHAPTER VII.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO POINTS WEST OF THE MISSISSIPPI RIVER.

§ 1. Application of tariff naming through rates from Central Freight Association Territory, to points in Trans-Mississippi and Trans-Missouri River Territories, also through commodity rates to points in North Dakota, South Dakota and Montana.

§ 2. Application of tariffs from Central Freight Association Territory, to Spokane, Wash., and points in Idaho, Montana, Wyoming located in Intermediate North Pacific Coast Territory.

§ 3. Application of tariffs from Central Freight Association Territory, to North and South Dakota.

§ 4. Application of tariffs from Central Freight Association Territory, to Montana Common Points.

§ 5. Application of tariffs from Central Freight Association Territory, to North Pacific Coast Terminals and Intermediate Points.

§ 6. Application of tariffs from Central Freight Association Territory, to Louisiana Common Points.

§ 7. Application of tariffs from Central Freight Association Territory, to Arkansas.

§ 8. Application of tariffs from Central Freight Association Territory, to Oklahoma.

§ 9. Application of tariffs from Central Freight Association Territory, to Texas Common Points and points taking higher than Texas Common points rates, The Rio Grande Crossings, Houston, Galveston, Texarkana and points taking same rates.

§ 10. Application of tariffs from Central Freight Association Territory, to New Mexico and Arizona.

§ 11. Application of tariffs from Central Freight Association Territory, to California Terminals and Intermediate South Coast Territory in Arizona, California, Nevada, New Mexico, Oregon and Utah.

§ 12. Application of tariffs from Central Freight Association Territory, to Trans-Mississippi River Territory and Missouri River points.

CHAPTER VII.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO POINTS WEST OF THE MISSISSIPPI RIVER.

§ 1. **Application of Tariffs Naming Through Rates from Central Freight Association Territory to Points in Trans-Mississippi River and Trans-Missouri River Territories. Also Through Commodity Rates to Points in North Dakota, South Dakota and Montana.**

In making rates from Central Freight Association Territory to points in Trans-Missouri River Territory, this Territory is included within the Trans-Mississippi Territory, and, where combination rates are made on the Mississippi River Combination, the information as to how through rates are made, is shown under Section 12 of this Chapter.

The following tariffs name through rates from points in Central Freight Association Territory:

(1) **Through Class and Commodity Rates** are published from points in Louisville, Cincinnati, Dayton—South Bend Detroit—Cleveland and Pittsburgh Territories, as outlined in Southwestern Lines Territorial Directory 1 series, to points in Kansas, by the Trans-Missouri Freight Bureau in Tariff 35 series. This tariff also names basing Class and Commodity rates from the Mississippi Crossings, to points in Kansas, applying as proportional rates on shipments originating in Central Freight Association Territory.

(2) **Through Rates on Salt, Carload, from** Akron, Ohio, Bay City, Mich., Benton Harbor, Mich., Cleveland, Ohio, Delray, Mich., Detroit, Mich., Ecorse, Mich., Junction Yard, Mich., Ludington, Mich., Manistee, Mich., Marine City, Mich., Michigan City, Ind., Midland, Mich., Mount Pleasant, Mich., Newburgh, Ohio, Port Huron, Mich., St. Clair, Mich., St. Joseph, Mich., Saginaw, Mich., Sandusky, Ohio, Toledo, Ohio, Wadsworth, Ohio, Wyandotte and Zilwaukee, Mich., **to** stations in Iowa, Kansas, Minnesota, Missouri, Nebraska, North and South Dakota, are published by the Western Trunk Line Committee in Tariff 16 series.

(3) **Through Rates on Salt, Carload, from** Akron, Ohio, Bay City, Mich., Benton Harbor, Mich., Cleveland, Ohio, Delray, Mich., Detroit, Mich., Ecorse, Mich., Junction Yard, Mich., Ludington, Mich., Manistee, Mich., Marine City, Mich., Michigan City, Ind., Midland, Mich., Milwaukee Jct., Mich., Mount Pleasant, Mich., Newburgh, Ohio, Port Huron, Mich., Rittman, Ohio, St. Charles, Mich., St. Clair, Mich., St. Joseph, Mich., Saginaw, Mich., Sandusky, Ohio, Sibley, Mich., Toledo, Ohio, Wadsworth, Ohio, West Detroit, Mich., Willson Ave. (Cleveland), Ohio, Wyandotte and Zilwaukee, Mich., **to** stations in Arkansas, Colorado, Kansas, Missouri, Montana, Nebraska, Oklahoma, South Dakota, Wyoming, are published by the Western Trunk Line in Tariff 57 series.

(4) **Through Rates on Cement, Portland, Hydraulic and Paving, Straight or Mixed Carloads from** points in Indiana, Kentucky, **to** points in Arkansas, Louisiana, Missouri, Oklahoma and Texas, are published by the Southwestern Lines Tariff 90 series.

(5) **Miscellaneous Commodity Rates from** points in Indiana, Kentucky, Michigan and Ohio, **to** points in Iowa, Kansas, Minnesota, Missouri, Montana, North Dakota and

South Dakota, are published by the Central Freight Association in Tariff 147 series.

In making rates to points in Minnesota, to which no through rates are published, Combination Rates can be made on St. Paul, Minnesota Transfer, or Duluth, by using the tariffs shown under this Chapter to the points named and the tariffs of the Individual Carriers operating from St. Paul, Minnesota Transfer, or Duluth, to the various points of destination in Minnesota.

The tariffs issued by the Central Freight Association, naming rates to St. Paul, Duluth, Winona and the Common Points, as a general rule, also carry proportional rates to the Missouri River applying on traffic destined to points in Idaho, Montana, Oregon and Washington. They likewise contain rates to Duluth, Minn., applying on traffic destined to points in the Canadian Northwest.

§ 2. Application of Tariffs from Central Freight Association to Spokane, Wash., and Points in Idaho, Montana and Wyoming Located in Intermediate North Pacific Coast Territory.

Through Rates, both Class and Commodity, are published from Central Freight Association Territory, to Spokane, Wash., and points taking same rates; also to intermediate points in North Pacific Coast Territory, located in Idaho, Montana, Wyoming and Washington, by the Trans-Continental Freight Bureau in Tariff 4 series.

§ 3. Application of Tariffs from Central Freight Association Territories to North and South Dakota.

(1) **To North Dakota:** There are no through rates from Central Freight Association Territory, East of the Indiana-Illinois State Line (except Chicago rate points in Indiana), and except the through rates published on Salt,

as shown in Section 1 of this Chapter. Generally speaking, through rates are made on the Minnesota Transfer Combination by using the Tariffs shown under Section 1 of Chapter 6 **to** Minnesota Transfer; and **from** Minnesota Transfer **to** the various destinations in North Dakota, the tariffs of the individual carriers operating from Minnesota Transfer to North Dakota.

(2) **To South Dakota:** A portion of the State of South Dakota is located in Trans-Mississippi River Territory, and **from** points East of the Indiana-Illinois State Line (except Chicago rate points in Indiana) the combination rate is made on the Mississippi River Crossings, as shown under Section 12 of this Chapter. The rates **to** points in South Dakota, not in Trans-Mississippi River Territory, can be made on the Chicago Combination. The rates **to** Chicago are published as indicated under Section 1 of this Chapter, and the rates **from** Chicago **to** points in South Dakota, are published in the following manner:

1a. **To** points on the Chicago & North Western Railway Company (east of the Missouri River), use Chicago & North Western Tariff, 11,600, series.

To points on the Chicago & North Western Railway (west of the Missouri River), use Chicago & North Western Tariff, 11,000 series.

2a. **To** points on the Chicago, Milwaukee & St. Paul Railway, use the Chicago, Milwaukee & St. Paul Railway Tariff, 10,000 series.

3a. **To** points on the Chicago, Rock Island & Pacific Railway, use Chicago, Rock Island & Pacific Railway Tariff, 23,000 series.

4a. **To** points on the Minneapolis & St. Louis Railway, class rates are published by the Minneapolis & St. Louis Railway in their tariff 503 series.

5a. **To** points on the Minneapolis, St. Paul & Sault Ste.

Marie Railway, rates are published by the Minneapolis, St. Paul & Sault Ste. Marie Railway.

6a. To points on the Great Northern Railway, through rates are published by the Great Northern Railway: When commodity rates are published, and are not provided for in the tariffs referred to, they are published by the individual carriers and in a similar manner to the class rates.

§ 4. Application of Tariffs from Central Freight Association Territory to Montana Common Points.

There are no through rates from Central Freight Association points East of the Indiana-Illinois State Line (except Chicago rate points in Indiana), applying to the Montana Common Points, except the bases of rates and maximum rates provided for in Trans-Continental Freight Bureau Tariff 4 and 14 series. Combination rates can be made on St. Paul, Minnesota Transfer, The Missouri River Crossings or Chicago, Ill. Through rates are made as follows:

(1) Combination can be made on St. Paul, Minnesota Transfer or the Missouri River Crossings, by using the tariff shown under Section 1 of Chapter 6, to the points named; and from St. Paul, Minnesota Transfer or the Missouri River, the rates as published in Trans-Continental Freight Bureau Tariff No. 14 series.

(2) Combination rates can be made on Chicago, also on Peoria, by using the tariffs of the individual carriers, as shown under Section 1 of this Chapter, up to Chicago or Peoria, and the rates, as published from Peoria or Chicago, in Trans-Continental Freight Bureau Tariff 14 series, to destination.

(3) From points in Central Freight Association Territory, West of the Indiana-Illinois State Line (including Chicago Rate points in the State of Indiana), also points

in Iowa and Missouri on the West Bank of the Mississippi River, through rates are published in Trans-Continental Freight Bureau Tariff No. 14 series.

In rating shipments originating in Central Freight Association Territory, destined to the Montana Common Points, the maximum rates provided for in Trans-Continental Freight Bureau Tariffs 4 and 14 series, must be taken into consideration.

Trans-Continental Freight Bureau Tariffs 4 and 14, previously referred to, also provide a basis for Lake and Rail rates, which can be taken advantage of during the open period of lake navigation.

§ 5. Application of Tariffs from Central Freight Association Territory to North Pacific Coast Terminals and Intermediate Points.

Through rates both class and commodity are published from Central Freight Association points, to North Pacific Coast Terminals; also to intermediate points in Oregon, Washington, Idaho, Montana, and Wyoming, including points in Oregon on the Southern Pacific Co., stations on the Oregon Electric Railway Co., The Portland Railway Light & Power Co., and points in Washington and Idaho taking arbitraries over the through rates to points on the north coast and in the intermediate territory.

The through rates referred to above, are published by the Trans-Continental Freight Bureau in their west-bound Tariff No. 4 Series. This tariff must be read very carefully, as it contains carload and less than carload commodity rates and its own routing instructions and exceptions to the Western Classification. It also provides a basis for rail and water rates which apply during the open period of Lake navigation.

§ 6. Application of Tariffs from Central Freight Association Territory to Louisiana Common Points.

Through class and commodity rates are published to Louisiana common points, such as Shreveport, Lake Charles, West Lake, including practically all points in the state of Louisiana located west of the Mississippi River in southwest committee territory, in southwestern lines Tariff, No. 58 series.

The Tariff Series No. 58 is to be used in connection with southwestern lines territorial directory No. 1 series. In determining rates from Central Freight Association points, to the Louisiana common points you should first refer to the territorial directory, in order to ascertain the group in which your point or origin is located, as on this particular traffic. The Central Freight Association is divided into the following territories: 1—Chicago; 2—Cincinnati; 3—Davenport; 4—Dayton-South Bend; 5—Detroit-Cleveland; 6—Louisville; 7—Milwaukee; 8—Pittsburgh, and 9—St. Louis Territory. For example, with a shipment originating at South Bend, Ind., destined to Shreveport, La., you would use the rates published from Dayton-South Bend Territory to the Shreveport group.

Through rates are published from Central Freight Association points to Junction City, La., in Southwestern Lines Tariff No. 45 Series. This tariff is also to be used in connection with the southwestern line territorial, Directory No. 1 series.

§ 7. Application of Tariffs from Central Freight Association Territory to Arkansas.

Through class and commodity rates from Central Freight Association Territory, to points in Arkansas in Southwestern Tariff Committee Territory, are published in the following manner:

(1) **To** Little Rock, Fort Smith, Hot Springs, Blytheville, Brinkley, Camden, Pine Bluff and other Arkansas points, through rates are published in southwestern lines Tariff No. 45 series.

(2) **To** Texarkana and the following named points in Arkansas, through rates are published in Tariff No. 58 series:

The Tariffs referred to under this section are to be used in connection with Southwestern Lines Territorial Directory, number one series, and in a similar manner to that provided for on shipments originating in Central Freight Association Territory destined to Texas points.

§ 8. Application of Tariffs from Central Freight Association to Oklahoma Points.

The through rates from Central Freight Association Territory to Oklahoma, are published in the following manner:

(1) **To** Fogels Spur, Heavener, Hodgens, Page, Perry and Thomasville, the through rates are provided for in Southwestern Lines' Tariff Series No. 58.

(2) **To** Ballard, Baptist, Blanck, Brushy, Bunch, Chert Ballast Pit, Fascine, Foreman's Spur, Gans, Hines-Gobel Sand Co Spur, Lyons, Marble City, Marble Quarry Spur, Murray Spur, Peavine Lumber Co Spur, Peno, Poteau, Redland, Reynolds, Scullyville, Spiro, Stilwell, Watts, and Windsor, the through rates are published in Southwestern Lines' Tariff No. 45 Series.

(3) **To** practically all other Oklahoma points, through rates from Central Freight Association Territory are published in Southwestern Lines' Tariff No. 15 Series.

The tariffs referred to above, applying from Central Freight Association Territory to Oklahoma points, are to be used in connection with South Western Lines' Territorial Directory No. 1 series, which shows the grouping

of the points of origin in Central Freight Association Territory.

§ 9. Application of Tariffs from Central Freight Association Territory to Texas Common Points and Points Taking Rates Higher Than Texas Common Points, the Rio Grande Crossings, Houston, Galveston, Texarkana and Points Taking the Same Rates.

Through rates are published to the state of Texas from Central Freight Association Territory, as follows:

(1) Through rates to Texas common points and points taking rates higher than Texas common points are published by the Southwestern Lines in Tariff No. 1 Series and through rates to the Rio Grande Crossings in Tariff No. 95 Series.

(2) To Houston and Galveston and points taking same rates, through rates are published in Southwestern Lines' Tariff No. 2 Series.

(3) To Texarkana and points taking same rates, through rates are published in Southwestern Lines' Tariff No. 58 Series.

(4) To Palmo, Rossman, and Smithland, Texas, through rates are published in Southwestern Lines' Tariff No. 58 Series. In making shipments to Texas points from Central Freight Association Territory, it is necessary, first, to refer to Southwestern Lines' Territorial Directory No. 1 Series, in order to determine the particular territory in which the point of origin is located, as, on Texas traffic, the Central Freight Association is divided into the following groups:

(A) Chicago, (B) Cincinnati, (C) Dayton-South Bend, (D) Detroit-Cleveland, (E) Louisville, (F) Pittsburgh-Buffalo Territory. For example, in making a shipment from South Bend, Ind., to Dallas, Texas, refer to Southwestern Lines' Territorial Directory No. 1 Series, which

will show that South Bend is located in Dayton-South Bend Territory. Refer to Southwestern Lines Tariff No. 1 Series, which will show that Dallas is one of the Texas common points, and you would use the rates applying in Southwestern Lines' Tariff No. 1 Series from Dayton-South Bend Territory to Texas common points. If the shipments were destined to Laredo, Texas, which is a point taking an arbitrary over the Texas common points, it would be necessary to add the arbitrary named in Southwestern Lines' Tariff No. 1, as applying to Laredo, to the rate from Dayton-South Bend Territory to Texas common points.

(5) Through rates on salt, carloads, from points in Illinois, Indiana, Michigan, New York, Ohio, are published by the Southwestern Lines in Tariff No. 22 Series.

§ 10. Application of Tariffs from Central Freight Association Territory to New Mexico and Arizona.

Through rates are published from Central Freight Association Territory to points in Arizona in Trans-Continental Tariff No. 1 Series. Rates not provided for in this tariff are made on the lowest combination by using the rates published in Trans-Continental Tariff No. 1 Series to the junction points in Arizona, plus the local rate. Rates to New Mexico are provided for in the following manner:

Through rates are published to points on the Arizona and New Mexico Ry., Atchison, Topeka and Santa Fe Ry., El Paso and Southwestern System and South Pacific Company, in Trans-Continental Tariff No. 1 Series. Rates to other points in New Mexico are made on the Mississippi River Combination, by using the tariffs shown under section No. 1 of this chapter, to the Mississippi River, and the tariff as shown under section 12, from the Mississippi River to destination.

§ 11. Application of Tariffs from Central Freight Association Territory to California Terminals and Intermediate South Coast Territory in Arizona, California, Nevada, New Mexico, Oregon and Utah.

Through class and commodity rates are published from Central Freight Association Territory to the California terminals, also to points in Arizona, Nevada, New Mexico, Oregon (points shown in Trans-Continental Circular No. 16 Series), and Utah (western portion), in Trans-Continental Freight Tariff No. 1 Series. This tariff also provides a basis for rates to points in California (other than Pacific Coast terminals).

The general basis for rates to points in California (except terminals) is the rate published to the California terminals, plus 75 per cent of the local rate from the California terminals to destination. Arbitraries to be added to the California terminal rate are provided for in Trans-Continental Freight Bureau Tariff No. 1 Series, which also gives a list of the tariffs naming local rates, and provides for maximum and alternative rates. The application of tariff No. 1 Series should be read very carefully, as the tariff is very complicated and contains many rules and exceptions which directly affect the rates.

Rates to interior points in South Pacific Coast (intermediate territory not provided for in Trans-Continental Freight Bureau Tariff No. 1 Series) are made on the lowest legal combination.

§ 12. Application of Tariffs from Central Freight Association Territory to Trans-Mississippi River Territory and Missouri River Points.

There are no through rates from points in Central Freight Association Territory, east of the Indiana-Illinois

state line, except Chicago rate points in Indiana, and except as otherwise provided for in another section of this volume to Trans-Mississippi River Territory. Through rates are made on the east bank of the Mississippi River Crossings, or St. Louis, Mo., and the rates as published from the east bank of the Mississippi River Crossings and St. Louis, Mo., to the various points of destination in Trans-Mississippi River Territory.

The rates **to** St. Louis, Mo., and the east bank of Mississippi River Crossings are published in the manner indicated under chapters 1 and 2 of this volume.

The rates **from** the east bank of Mississippi River Crossings **to** points in Trans-Mississippi River Territory are published as follows:

(1) **Arkansas: Class and Commodity Rates** from the Mississippi River Crossings to Arkansas:

1a. **To** Ashdown, Hope, McNeil, Stamps, Texarkana and points taking same rates, also to points on the Memphis, Dallas & Gulf Railroad, Prescott & Northwestern R. R., in Southwestern Lines Tariff 58 Series.

2a. **To** Little Rock, Hot Springs, Pine Bluff, Fort Smith and other Arkansas points rates are published in Southwestern Lines Tariff 45 Series.

Specific Commodity Rates are published as follows:

1a. **Cement, Portland, Hydraulic and Paving, from** East St. Louis **to** Arkansas points in Southwestern Lines Tariff 90 Series.

2a. **Cement, Lime, Wall Plaster, Stucco and Plaster Boards, carloads, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line Tariff 78 Series.

3a. **Coal and Coke, carloads, from** East St. Louis, Ill., in Western Trunk Line Tariff 53 Series.

4a. **Furniture, carloads, from** East St. Louis, Ill., in Western Trunk Line Tariff 22 Series.

5a. **Lumber, and articles taking same rates, carloads, from** East St. Louis, Ill., and points taking same rates, in Western Trunk Line Tariff 54 Series.

6a. **Salt, carload, from** East St. Louis, Ill., in Western Trunk Line Tariff 74 Series.

In addition to the rates published in tariffs referred to above, there are specific commodity rates published by the individual carriers.

(2) **Colorado:**

To the Colorado common points, proportional rates **from** the Mississippi River Crossings, also rates from Memphis, are published **in** Western Trunk Line 111 Series. The Trans-Missouri Freight Bureau, in its Tariff No. 2 Series, also publishes rates on Lumber and articles taking Lumber rates, applying **from** the Mississippi River, **to the Colorado common points.**

To points in Colorado east of the Colorado common points, the rates beyond the Mississippi River are published in Western Trunk Lines Tariff No. 18 Series, and **from** Memphis in Western Trunk Line Tariff No. 33 Series.

Specific commodity rates **to** points in Colorado, east of the common points, are also published by the Western Trunk Line Committee, as follows:

1a. **Coal and Coke in carloads,** in Western Trunk Line Tariff No. 53 Series.

2a. **Furniture in carloads,** in Western Trunk Line Tariff No. 22 Series.

3a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

4a. **Lumber and articles taking same rates,** basing rates are published **from** Colorado Springs and Pueblo, Colo., in Trans-Missouri Tariff 3 Series. These rates are to be added to the proportional rates on Lumber **from** the Mis-

sissippi River Crossings to Colorado Springs and Pueblo, to make through rates to points in Colorado, west of the Colorado common points, and intermediate to Salt Lake City.

5a. **Cement, Lime, Wall Plaster, Stucco, and Plaster Boards, carloads, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line Tariff 78 Series.

6a. **Salt in carloads,** in Western Trunk Line Line Tariff No. 74 Series.

To points in Colorado, between the Colorado common points and Utah common points, intermediate to Salt Lake City, rates from the Mississippi River and Memphis, are published in Trans-Missouri Tariff No. 20 Series.

To points in Colorado west of the common points and not intermediate to Salt Lake City, rates are made on the Denver, Pueblo, Trinidad or Colorado Springs Combination. The local rates from these points are published by the individual carriers. For example:

On a shipment destined to Silverton, Colorado, you would use from the east bank of the Mississippi River to Pueblo, the rates as published in Trans-Missouri Tariff No. 11 Series, and from Pueblo to Silverton, you would use the Denver & Rio Grande Local Tariff, naming rates from Pueblo to Silverton.

(3) **Idaho:**

A portion of the state of Idaho is covered by through rates published in Trans-Continental Tariff No. 4 Series.

Proportional rates **from** the Mississippi River Crossings, **to** stations in Idaho on the Oregon Short Line, are published by the Union Pacific Railway Company in Oregon Short Line Series No. 2403.

To points on the Pacific & Idaho Northern Railway Company, there are no through rates from the Mississippi River Crossings. A combination rate is made on

Weiser, Idaho, by adding to the proportional rates from the Mississippi River, as published by the Union Pacific. The rates from Weiser, Idaho, to destination published by the Pacific & Idaho Northern Railway Company.

(4) **Iowa:**

Proportional rates from the Mississippi River to points in the state of Iowa are published in the following manner:

1a. To points on the Atchison, Topeka and Santa Fe Railway by the Atchison, Topeka and Santa Fe Railway.

2a. To points on the Chicago Great Western Railroad and its connections the rates are published by the Chicago Great Western Railroad in their Tariff Series No. 20. This tariff also names rates to points on the Colfax Northern Railroad, Crooked Creek Railroad, Fort Dodge, Des Moines and Southern Railroad, Interurban Railroad, Manchester and Oneida Railway, Mason City and Clear Lake Railway, and Waterloo, Cedar Falls and Northern Railway.

3a. To points on the Chicago, Burlington and Quincy Railroad the rates beyond the Mississippi River, are published in Chicago, Burlington and Quincy Tariff Series No. 5500. This tariff also names proportional rates from the Mississippi River, to points on the Iowa and St. Louis Railway, Atlantic Southern Railroad, Fort Dodge, Des Moines and Southern Railroad, and the Interurban Railroad.

4a. To points on the Chicago, Rock Island and Pacific Railway, proportional rates are published in Chicago, Rock Island and Pacific Tariff Series No. 28540. This tariff also names rates to points on the St. Paul and Kansas City Short Line Railroad, Atlantic Northern and Southern Railway, Interurban Railroad, Waterloo, Cedar Falls and Northern Railroad, Fort Dodge, Des Moines and Southern

Railway, Charles City Western Railroad, Mason City and Clear Lake Railway.

5a. **To** points on the Chicago and Northwestern Railway, the rates are published in Chicago and Northwestern Railway Tariff Series 11600. This tariff also names rates to points on the Fort Dodge, Des Moines and Southern Railway, Mason City and Clear Lake Railway, Chicago, St. Paul and Minneapolis and Omaha Railway, Chicago, Anamosa and Northern Railway, Cedar Rapids and Iowa City Railway, Interurban Railway.

6a. **To** points on the Chicago, Milwaukee & St. Paul Railway, proportional rates are published from the river in Chicago, Milwaukee and St. Paul Railway Tariff Series No. 10000. This tariff also names rates **to** points on the Cedar Rapids and Iowa City Railway, Chicago, Anamosa and Northern Railway, Fort Dodge, Des Moines and Southern Railroad, Interurban Railway, Manchester and Oneida Railway, Quincy, Omaha and Kansas City Railroad, St. Paul and Des Moines Railroad.

7a. **To** points on the Illinois Central Railroad, proportional rates are published in Illinois Central Railroad Tariff Series No. 5333.

8a. **To** points on the Minneapolis and St. Louis Railroad, the rates are published in Minneapolis and St. Louis Railroad Tariff Series No. 303. This tariff also applies to points on the Chicago and Northwestern Railway, Chicago, Milwaukee and St. Paul Railway, Crooked Creek Railroad, Fort Dodge, Des Moines and Southern Railroad, Interurban Railway, Mason City and Clear Lake Railroad, and Southern Iowa Traction Company.

9a. **To** points on the Wabash Railroad, proportional rates are published by the Wabash Railroad.

10a. **To** Missouri River points, proportional rates are published in Western Trunk Line Tariff Series No. 1.

11a. Proportional rates on commodities are also published in Western Trunk Line Tariff Series No. 50, with the exception of the commodities as noted on the title page of the tariff.

12a. **Lumber, carloads, and articles taking same rates from** Mississippi River Crossings, **to** Missouri River Crossings, are published in Western Trunk Line Tariff 54 Series.

13a. **Salt, carload, from** St. Louis, Mo., **to** points in Iowa, are published in Western Trunk Line Tariff 73 Series.

14a. **Sewer Pipe and Wall Coping, straight or mixed carloads, also Drain Tile and Flue Lining, in mixed carloads only, from** East St. Louis, **to** points in Iowa, are published by the Western Trunk Line in Tariff 12 Series.

In addition to the tariffs naming rates as provided for above, Specific Commodity Rates are published by the Individual Carriers and in a similar manner to the Class Rates.

(5) **Kansas:**

To the Missouri River Crossings, proportional rates are published from the east bank of the Mississippi River in Western Trunk Line Tariff No. 1 Series. Specific commodity rates are published on:

1a. **Coal and Coke in carloads,** in Western Trunk Line Tariff No. 53 Series.

2a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

3a. **Salt in carloads,** in Western Trunk Line Tariff No. 74 Series.

To points in Kansas west of the Missouri River, proportional rates are published from the Mississippi River Crossings, in Western Trunk Line Tariff No. 18 Series,

and from Memphis, Tennessee, in Western Trunk Line Tariff No. 33 Series.

Basing Class and Commodity Rates applying on traffic originating in Central Freight Association Territory, from the Mississippi River Crossings **to** Kansas points, are published in Trans-Missouri Tariff 35 Series.

Specific commodity rates are also published on:

1a. **Coal and Coke,** in Western Trunk Line Tariff No. 53 Series.

2a. **Furniture,** in Western Trunk Line Tariff No. 22 Series.

3a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

4a. **Salt,** in Western Trunk Line Tariff No. 74 Series.

Class and commodity rates, **to** points on the Chicago, Burlington and Quincy, are published in Chicago, Burlington and Quincy Tariff No. 5000 Series.

5a. **Salt, carloads, from** St. Louis, Mo., **to** points in Kansas, in Western Trunk Line Tariff 73 Series.

6a. **Cement, Lime, Wall Plaster, Stucco and Plaster Board, carloads, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line 78 Series.

In addition to the rates shown in the tariffs named above, there are also specific commodity rates published by the individual carriers.

(6) **Louisiana:**

Through rates are published on Cement, carloads, from East St. Louis, Ill., **to** points in Louisiana by the Southwestern Lines in Tariff 90 Series.

(7) **Minnesota:**

Proportional rates **from** the Mississippi River **to** points in Minnesota, in Trans-Mississippi River Territory, are published in the following manner:

1a. **To** points on the Chicago and Northwestern Rail-

way, use beyond the Mississippi, Chicago and Northwestern Tariff Series 11600.

2a. To points on the Chicago, Rock Island and Pacific Railway, use Chicago, Rock Island and Pacific Tariff Series No. 28540.

3a. To points on the Great Northern Railway, the proportional rates from the Mississippi River are published by the Great Northern Railway.

4a. To points on the Illinois Central Railroad, use beyond the Mississippi River, the Illinois Central Railroad Tariff Series 5333.

Miscellaneous commodity rates applying from the east bank of the Mississippi River, to points in Minnesota, in Trans-Mississippi River Territory, are published in Western Trunk Line Tariff No. 50 Series.

In addition to the tariffs naming rates as shown above, there are also Specific Commodity Rates published by the individual carriers and in a similar manner to the Class Rates.

(8) **Missouri:**

Proportional rates from the east bank of the Mississippi River, also from Cairo, Gale and Thebes, Illinois, where referred to in this section, are published to points in Missouri.

On this particular traffic it sometimes happens that the Cairo, Gale or Thebes Combination will make a lower rate than the use of the Combination on the east bank of the Mississippi River. The tariffs of the Eastern Lines, naming rates to Central Freight Association Territory, contain rates to Cairo, Gale and Thebes, and this Combination should be used where it will produce a lower rate.

To the Missouri River Crossings, class and commodity rates are published in Western Trunk Line Tariff No. 1 Series.

Specific commodity rates to the Missouri River Crossings, are published by the Western Trunk Lines as follows:

1a. **Coal and Coke, carloads,** in Western Trunk Line Tariff No. 53 Series.

2a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

3a. **Salt,** in Western Trunk Line Tariff No. 74 Series.

To Southwest City, Missouri, and stations in Missouri on the Butler County Railroad, rates are published in Southwestern Lines Tariff No. 45 Series.

To points in the southwest portion of Missouri, west of the Missouri River, rates are published in the Western Trunk Line Tariff No. 18 Series.

Specific rates are also published on the following commodities:

1a. **Coal and Coke,** in Western Trunk Line Tariff No. 53 Series.

2a. **Furniture, carloads,** in Western Trunk Line Tariff No. 22 Series.

3a. **Salt,** in Western Trunk Line Tariff No. 74 Series.

4a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

To the southwest portion of the state of Missouri, rates can also be made on Cairo or Memphis Combination. Class and commodity rates **from** these points, are published in Western Trunk Line Tariff No. 33 Series.

To points in Missouri on the St. Louis and San Francisco Railroad, St. Louis and Southwestern Railway, and St. Louis, Iron Mountain and Southern Railway, classes and commodity rates are published applying **from** Cairo, Gale, Thebes, East St. Louis, in Southwestern Lines Tariff No. 68 Series.

9a. To points on the St. Louis, Iron Mountain and Southern Railway, proportional rates from East St. Louis, Cairo, Gale and Thebes, Illinois, are published in the Missouri Pacific Tariff Series No. 1978. This tariff also names rates to points on the Butler County Railroad, Cape Girardeau Northern Railway, Mississippi River and Bonne

Terre Railway, Missouri Southern Railroad, Saint Francois County Railway, Williamsville, Greenville and St. Louis Railway.

10a. **To** points on the St. Louis and San Francisco Railroad, from the Mississippi River Crossings, also from Cairo and Thebes, proportional rates are published in St. Louis and San Francisco Tariff Series No. 1298. This tariff also names rates **to** points on the Deering Southwestern Railway, Illinois Southern Railway, Mississippi Valley Railway, Paragould and Memphis Railroad, St. Francois County Railway Company, Salem, Winona and Southern Railway.

11a. **To** points on the Wabash Railroad, proportional rates **from** the Mississippi River Crossings are published by the Wabash Railroad. Except where noted in tariffs above referred to, they cover class rates only. Proportional commodity rates are published in Western Trunk Line Tariff Series No. 50, with the exception of the commodities as noted on the title page of the tariff.

The following tariffs name specific commodity rates **from** St. Louis, Mo., and points taking same rates, **to** points in Missouri:

12a. **Salt, carload, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line Tariff 73 Series.

13a. **Sewer Pipe, Wall Coping, straight or mixed carloads, also on mixed carloads of Drain Tile and Flue Lining from** East St. Louis, **to** points in Missouri, in Western Trunk Line Tariff 12 Series.

14a. **Cement, Lime, Wall Plaster, Stucco and Plaster Board, carloads, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line Tariff 78 Series.

In addition to the rates contained in the tariffs named above, there are also rates on specific commodities published by the individual carriers.

(9) **Montana:**

1a. **To** points on the Chicago, Milwaukee and St. Paul Railway, proportional rates beyond the river are published in Chicago, Milwaukee and St. Paul Tariff Series No. 6184.

2a. **To** points on the Chicago, Burlington and Quincy Railway, proportional rates from the Mississippi River are published in Chicago, Burlington and Quincy Tariff Series No. 5000.

To points on the Oregon Short Line Railroad, the rates are published by the Union Pacific Railroad, the Oregon Short Line serial number on the Tariff is 2403.

3a. The Western Trunk Line Committee in Tariff Series No. 74 publishes rates on salt in carloads **from** the east bank of the Mississippi River Crossings, **to** points in Montana on the Chicago, Burlington and Quincy Railroad.

4a. **Cement, Lime, Wall Plaster, Stucco, Plaster Board, carloads, from** St. Louis, Mo., **to** points in Montana, in Western Trunk Line 78 Series.

5a. **Lumber, carload, and articles taking same rates,** proportional rates **from** the Mississippi River, **to** points in Montana, are published by the Western Trunk Line in Tariff 54 Series.

6a. **Salt, carload, from** St. Louis, Mo., and points taking same rate, **to** points in Montana, in Western Trunk Line Tariff 74 Series.

(10) **Nebraska:**

The proportional rates from the Mississippi River Crossings and Memphis **to** Nebraska points, are published in the following manner:

1a. **To** the Missouri River Crossings, proportional classes and commodity rates, are published in Western Trunk Line Tariff No. 1 Series.

Specific commodity rates are published **on** Coal and Coke in Western Trunk Line Tariff No. 53 Series. Lum-

ber and Forest Products, in Western Trunk Line Tariff No. 54 Series. Proportional rates not shown in the tariffs referred to, are published by the individual carriers, operating from the Mississippi River Crossings to Memphis.

2a. **To** points west of the Missouri River Crossings, class and commodity rates are published from the Mississippi River Crossings in Western Trunk Line Tariff No. 18 Series. **From** Memphis **to** Nebraska points west of the Missouri River, in Western Trunk Line Tariff No. 33 Series.

Class and commodity rates **to** points on the Chicago and Northwestern Railway, are published in Chicago and Northwestern Railway Tariff No. 11,000 Series; **to** points on the Chicago, Burlington and Quincy Railroad, in Chicago, Burlington and Quincy Tariff No. 5000 Series.

Specific commodity rates are published on:

1a. **Coal and Coke,** in Western Trunk Line Tariff No. 53 Series.

2a. **Furniture,** in Western Trunk Line Tariff No. 22 Series.

3a. **Lumber and Forest Products,** in Western Trunk Line Tariff No. 54 Series.

4a. **Salt,** in Western Trunk Line Tariff No. 74 Series.

5a. **Cement, Lime, Wall Plaster, Stucco, Plaster Board, carloads, from** East St. Louis, are published in Western Trunk Line Tariff 78 Series.

6a. **Salt, carload, from** St. Louis, Mo., **to** Nebraska points, in Western Trunk Line Tariff 73 Series.

7a. **Sewer Pipe and Wall Coping, straight or mixed carloads, also Drain Tile and Flue Lining in mixed carloads, from** East St. Louis, Ill., are published in Western Trunk Line Tariff 12 Series.

Specific Commodity Rates are also published by the individual carriers, applying on commodities not otherwise provided for.

(11) **New Mexico:**

Through rates to a portion of the state of New Mexico, are published in Trans-Continental Tariff No. 1 Series. The rates to other points in New Mexico, are made on the east bank of the Mississippi River Combination, and rates from the Mississippi River to New Mexico points, are published in the following manner:

1a. To points on the St. Louis, Rocky Mountain and Pacific Railway, in Trans-Missouri Tariff No. 102 Series.

2a. To points on the Atchison, Topeka and Santa Fe Railway the rates are published in Atchison, Topeka and Santa Fe Tariff No. 5896 Series.

3a. To points on the El Paso Southwestern System, in Chicago, Rock Island and Pacific Tariff No. 21,966 Series.

4a. To points on the Chicago, Rock Island and Pacific Railway, in Chicago, Rock Island and Pacific Tariff No. 21,966 Series.

3a. **Salt, carload, from** St. Louis, Mo., and points taking same rates, in Western Trunk Line Tariff 73 Series.

4a. **Cement, Lime, Wall Plaster, Stucco and Plaster Board, carload,** in Western Trunk Line Tariff 78 Series.

5a. **Sewer Pipe, Wall Coping, straight or mixed carloads, also Drain Tile and Flue Lining, in mixed carloads,** in Western Trunk Line Tariff 12 Series.

In addition to the rates published in the tariffs shown above, rates on other commodities are published by the individual carriers.

(15) **Texas:**

Proportional rates **from** Mississippi River Crossings **to** Texas points on specific commodities, are published by the Southwestern Tariff Committee on:

1a. **Coal and Coke,** in Tariff 36 Series.

2a. **Cement** and articles taking same rate, in Tariff 90 Series.

3a. **Grain and Grain Products** and articles taking same rate, in Tariff 32 Series.

(16) **Utah:**

To the Utah common points, the rates beyond the Mississippi River, are published in Trans-Missouri Tariff No. 20 Series.

Specific commodity rates are published on Lumber and Forest Products, in Trans-Missouri Tariff No. 3 Series.

In making shipments to the Utah common points, Trans-Missouri Tariff No. 20 and Trans-Continental Tariffs 1-14 and 4, must be consulted for the application of maximum rates.

(17) **Wyoming:**

Proportional rates **from** the Mississippi River **to** Wyoming points, are published in the following manner:

1a. **To** points on the Chicago, Burlington and Quincy Railroad, in Chicago, Burlington and Quincy Tariff No. 5000 Series.

2a. **To** points on the Chicago and Northwestern Railway and connections, in Chicago and Northwestern in Tariff Series No. 11,000.

3a. **To** points on the Oregon Short Line, the rates are published by the Union Pacific Railroad. The Oregon Short Line number on the Tariff is 2403 Series.

4a. **To** points on the Colorado and Southern Railway, Colorado and Wyoming Railway, the rates are published by the Union Pacific Railway.

5a. **To** points on the Union Pacific Railroad, the rates are published by the Union Pacific Railroad.

The Western Trunk Line Committee publishes rates on specific commodities as follows:

1a. On **Coal and Coke, to** points in Wyoming, on the Colorado and Southern Railway and Union Pacific Railroads, in Tariff Series No. 53.

2a. **Lumber and Forest Products, to** points on the Union Pacific and Wyoming and Northwestern Railway, also **to** points in Wyoming on the Chicago and Northwestern Railway, in Tariff No. 54 Series.

3a. **Salt, in carloads, to** points on the Union Pacific Railroad and Wyoming and Missouri River Railroad, and Wyoming and Northwestern Railway, in Tariff Series No. 74.

4a. **Cement, Lime, Wall Plaster, Stucco and Plaster Board, carloads, from** St. Louis, Mo., **to** points in Wyoming, in Western Trunk Line Tariff 78 Series.

In addition to the rates published in the tariffs referred to above, specific commodity rates are published by the individual carriers, and through class and commodity rates are published **from** Central Freight Association Territory, to points in Wyoming, in Trans-Continental Freight Bureau Tariff No. 4 Series.

CHAPTER VIII.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO MEXICO. ALSO PROPORTIONAL RATES TO PACIFIC COAST POINTS, ON SHIPMENTS DESTINED TO ALASKA, THE HAWAIIAN ISLANDS, ALSO TO POINTS ON OR TRIBUTARY TO THE YUKON RIVER AND PORTS IN BRITISH COLUMBIA NORTH OF QUEEN CHARLOTTE SOUND; PROPORTIONAL RATES TO PACIFIC COAST PORTS ON SHIPMENTS DESTINED TO THE ORIENT, THE PHILIPPINE ISLANDS, AUSTRALIA, FIJI ISLANDS, NEW ZEALAND OR BEYOND.

§ 1. Application of tariffs from Central Freight Association Territory, to Mexico.

§ 2. Application of tariffs naming proportional rates from Central Freight Association Territory, to Pacific Coast ports on shipments destined to Alaska and the Hawaiian Islands, also to points on or tributary to the Yukon River and ports in British Columbia, North of Queen Charlotte Sound.

§ 3. Proportional rates to Portland, Oregon; San Francisco, Cal.; Seattle, Wash.; Tacoma, Wash.; and Vancouver, B. C., applying on shipments destined to Siberia, China, Japan, The Philippine Islands, Australia, Fiji Islands, New Zealand or beyond.

CHAPTER VIII.

APPLICATION OF TARIFFS FROM CENTRAL FREIGHT ASSOCIATION TERRITORY TO MEXICO. ALSO PROPORTIONAL RATES TO PACIFIC COAST POINTS, ON SHIPMENTS DESTINED TO ALASKA, THE HAWAIIAN ISLANDS, ALSO TO POINTS ON OR TRIBUTARY TO THE YUKON RIVER AND PORTS IN BRITISH COLUMBIA NORTH OF QUEEN CHARLOTTE SOUND; PROPORTIONAL RATES TO PACIFIC COAST PORTS ON SHIPMENTS DESTINED TO THE ORIENT, THE PHILIPPINE ISLANDS, AUSTRALIA, FIJI ISLANDS, NEW ZEALAND OR BEYOND.

§ 1. Application of Tariffs from Central Freight Association Territory to Mexico.

(1) **Through Ocean and Rail Rates applying on miscellaneous commodities from** points in Central Freight Association Territory, **to** Vera Cruz and Tampico, Mexico, are published by the Gulf Foreign Freight Committee in Tariff 1 Series.

(2) **Through Commodity Rates** are published **from** points in Central Freight Association Territory, **to** Guaymas, Empalme and Mazatlan, Mexico, by the Pacific Freight Bureau.

To other points in Mexico there are no through rates. Combination rate is made on the Rio Grande River Crossings, as follows:

(3) **Through Class and Commodity Rates** applying **from** Central Freight Association Territory, are published **in** Southwestern Lines Tariff 1 Series.

(4) **Proportional Commodity Rates from** points in Cen-

tral Freight Association Territory, to the Rio Grande River Crossings, applying on shipments destined to Mexico, are published by the Southwestern Lines in Tariff 88 Series.

The local rates of the Mexican Lines operating from the Rio Grande Crossings, are to be added to the rates published in the tariffs named above, to make through rates to Mexico.

§ 2. Application of Tariffs, Naming Proportional Rates from Central Freight Association Points to Pacific Coast Ports on Shipments Destined to Alaska and the Hawaiian Islands, also to Points on or Tributary to the Yukon River and Ports in British Columbia, North of Queen Charlotte Sound.

Class and Commodity Rates applying from Central Freight Association points, to Seattle, Wash., will also apply to Portland, Oregon, Tacoma, Wash., Vancouver, B. C., and New Westminster, B. C., on traffic destined to and consigned through to Alaska and points located on or tributary to the Yukon River, and to ports in British Columbia, north of Queen Charlotte Sound. The rates published to Seattle, Wash., will also apply to Tacoma, Wash., on traffic destined to and consigned through to the Hawaiian Islands. The rates referred to above are published in Trans-Continental West-bound Tariff No. 4 Series. Shipments originating in Central Freight Association Territory, and consigned through to Alaska and points located on or tributary to the Yukon River, also to the Hawaiian Islands, can also be routed via San Francisco, Cal. Trans-Continental Freight Bureau Tariff No. 1 Series, provides that the rates published to Seattle, Wash., in Trans-Continental Freight Bureau No. 4 Series, will apply to San Francisco, Calif., on this traffic.

§ 3. Proportional Rates to Portland, Oregon; San Francisco, Cal.; Seattle, Wash.; Tacoma, Wash.; and Vancouver, B. C., Applying on Shipments Destined to Siberia, China, Japan, the Philippine Islands, Australia, Fiji Islands, New Zealand or Beyond.

(1) The proportional class and commodity rates applying from stations in Indiana, Kentucky, Michigan (Southern Peninsula), New York (western part of), Ohio, Pennsylvania (western part of), and West Virginia, applying to East San Pedro, Cal.; Portland, Ore.; San Francisco, Cal.; Seattle, Wash.; Tacoma, Wash., and Vancouver, B. C., on traffic destined to and consigned through to Yokohama, Kobe, Nagasaki, Moji, Japan; Shanghai, Hongkong, China; Manila, P. I.; and other points in the Orient; and also to Sydney, Australia; Suva, Fiji Islands; Auckland, Wellington, New Zealand, or beyond, are published by the Central Freight Association in Tariff No. 116 Series.

(2) Class and commodity rates are published from Illinois, Indiana (Chicago rate points), Iowa (points on the west bank of the Mississippi River), Michigan (Mackinaw City, Manistique, Menominee, St. Ignace, and Sault Ste. Marie), Missouri (points on the west bank of the Mississippi River), and Wisconsin, to Vancouver, B. C., applying as proportional rates on shipments destined to Australia, Fiji Islands, and New Zealand, in Trans-Continental Freight Bureau Tariff No. 20 Series.

(3) **Class and Commodity Rates** applying from the points of origin shown above, to Vancouver, B. C., applying as proportional rates on shipments destined to Yokohama, Kobe, Nagasaki, Moji, Japan; Shanghai, Hongkong, China; Manila, P. I., or beyond, are published by the Trans-Continental Freight Bureau in Tariff No. 24 Series.

(4) **Class and Commodity Rates** applying from the same

points of origin as shown under Tariff 20 Series, applying as proportional rates to Seattle, Tacoma, Wash., Albina, Portland, and East Portland, Oregon, on shipment destined to Yokohama, Kobe, Nagasaki, Moji, Japan; Shanghai, Hongkong, China; Manila, P. I., or beyond, are published in Trans-Continental Freight Bureau Tariff No. 23 Series.

(5) **Class and Commodity Rates** applying **from** the same points of origin as shown under the applicational rates under Tariff 20 Series, are published **to** East San Pedro, and San Francisco, Calif., applying as proportional rates on shipments destined to Yokohama, Kobe, Nagasaki, Japan; Shanghai, Hongkong, China; Manila, P. I., or beyond; also to Sydney, Australia; Wellington, New Zealand, or beyond, in Tariff No. 22 Series, issued by the Trans-Continental Freight Bureau.

§ 14. Application of tariffs from Canadian Freight Association Territory, to Arkansas Common points.
§ 15. Application of tariffs from Canadian Freight Association Territory, to Oklahoma Rate points.
§ 16. Application of tariffs from Canadian Freight Association Territory, to Texas Common Points and points taking rates higher than Texas Common Points, including Houston and Galveston Rate Points and Rio Grande River Crossings.
§ 17. Application of tariffs from Canadian Freight Association Territory, to Mexican Common Points.
§ 18. Application of tariffs from Canadian Freight Association Territory, to New Mexico and Arizona points.
§ 19. Application of tariffs from Canadian Freight Association Territory, to California Terminals and Intermediate South Pacific Coast Territory.
§ 20. Application of tariffs from Canadian Freight Association Territory, to Winnipeg and Canadian Northwest points.
§ 21. Application of tariffs from Canadian Freight Association Territory, to Madison, Janesville, Beloit and other points in Wisconsin to which no through rates are published.

CHAPTER IX.

APPLICATION OF TARIFFS WITHIN AND FROM CANADIAN FREIGHT ASSOCIATION TERRITORY TO OTHER POINTS.

§ 1. Application of Tariffs Within the Canadian Freight Association Territory.

The tariffs applying on shipments within the Canadian Freight Association Territory, are published by the individual carriers.

In some instances the tariffs apply between, that is, they apply in both directions, and may be published by either the originating line or the line terminating the traffic.

The rates applying from points located on small lines of railway, are generally published by their larger connections. For example, we will illustrate the various methods of tariff publication within the Canadian Freight Association Territory.

From stations on the Grand Trunk Railway (Atlantic Division), **to** stations on the Intercolonial Railway, the through rates are published by the Grand Trunk Railway.

On traffic moving **between** Canadian Pacific Railway stations (West of Montreal) and points on the Eastern Line of the Canadian Northern Railway, the rates are published by the Canadian Pacific Railway.

On traffic moving **between** points on the Canadian Pacific Ry. and points on the Temiscaming and Northern Ontario Ry., the rates are published by the Canadian Pacific Railway.

On traffic moving **between** Canadian Pacific stations in Canada and stations on the Wabash Railroad in Canada, the rates are published by the Canadian Pacific Railway.

Through rates **from** points on the Galt Preston & Hespeler Ry., **to** stations on the Intercolonial Ry., are published by the Canadian Pacific Ry.

On shipments moving **from** points on the Intercolonial Ry., **to** stations on the Grand Trunk Ry., the through class rates are published by the Grand Trunk Ry.

Through rates **from** points on the Pere Marquette Ry., London and Port Stanley Ry., Windsor, Essex and Lake Shore Rapid Railway and Lake Erie and Detroit River Railway stations, **to** points on the Grand Trunk, are published by the Pere Marquette Ry.

There are numerous class and commodity tariffs applying within the Canadian Freight Association Territory, which are published by the individual carriers, and in a similar manner to the illustration given.

§ 2. Application of Tariffs from Canadian Freight Association Territory to Trunk Line and New England Territories.

Through rates are published **from** the principal points in Canadian Freight Association Territory by the Individual Carriers (or their connections) originating traffic in Canadian Freight Association Territory. For example: (1) The Canadian Pacific Ry. publishes Through Class Rates, applying **between** Canadian Pacific Railway stations, Fort William and East, and Canadian Pacific Railway stations in Maine and Vermont.

(*2*) **Class and Commodity Rates from** Canadian Pacific Railway stations, **to** Boston, Mass., Hartford, Conn., Providence, R. I., and points taking same rates, as shown

in Canadian Pacific Ry. East Bound Waybilling Instructions, are published by the Canadian Pacific Ry.

(3) **Class and Commodity Rates from** Canadian Pacific Railway stations, **to** Albany, Troy, New York, N. Y., Philadelphia, Pa., and points taking same rates, are published by the Canadian Pacific Ry.

(4) **Class and Commodity Rates from** Canadian Pacific Railway stations, also from stations on connecting line to Boston, Mass., and points taking same rates, are published by the Canadian Pacific Ry.

(5) **Class Rates from** Canadian Pacific Railway stations (South of the St. Lawrence River to Megantic, Que., inclusive), **to** points on the Boston and Maine R. R., Central Vermont Ry. and Maine Central R. R., are published by the Canadian Pacific Ry.

(6) **Class Rates from** Canadian Pacific Railway stations, **to** stations on the Delaware and Hudson Co., are published by the Canadian Pacific Railway.

(7) **Class Rates from** Canadian Pacific Railway stations (Maberley and North Bay, Ont., and East), **to** points on the Erie Railroad, New Jersey and New York R. R., New York, Susquehanna & Western R. R., Wilkesbarre & Eastern R. R., are published by the Canadian Pacific Ry.

(8) **Class Rates from** Canadian Pacific Railway stations, **to** stations on the New York Central and Hudson River Railroad, are published by the Canadian Pacific Ry.

(9) **Class Rates from** Canadian Pacific Railway stations (South of the St. Lawrence River to Megantic, Que., inclusive), **to** stations on the New York, New Haven and Hartford R. R. and New England Steamship Co., are published by the Canadian Pacific Ry.

(10) **Class Rates from** Canadian Pacific Railway stations, also from stations on connecting lines to New York,

N. Y., and points taking same rates, are published by the Canadian Pacific Railway.

Through Rates, Both Class and Commodity, from points on the Grand Trunk Railway system, Michigan Central R. R., Pere Marquette Ry., **to** points in Trunk Line and New England Territories, are published by the railroads named in their individual tariffs and in a similar manner to those published by the Canadian Pacific Railway.

Where through rates are not provided for, the rates are made on the lowest legal combination.

§ 3. Application of Tariffs from Canadian Freight Association Territory to Central Freight Association Territory.

Through Class and Commodity Rates are published **from** the principal points in Canadian Freight Association Territory, **to** Central Freight Association points, by the Individual Carriers or their connections originating traffic in Canadian Freight Association Territory. For example: The Grand Trunk Railway System publishes Class Rates **from** stations in Ontario, located on the Grand Trunk System, **to** points in Central Freight Association Territory.

Class and Commodity Rates from points on the Grand Trunk System and Intercolonial Railway, **to** Central Freight Association points, are published by the Grand Trunk Ry.

Class Rates from stations on the Canadian Pacific Ry. (Ontario Division), **to** stations in the states of Illinois, Indiana, Iowa, Michigan, Missouri, Ohio and Wisconsin, are published by the Canadian Pacific Ry.

Class Rates from Canadian Pacific Railway stations (Toronto, Ont., and West), **to** Akron, Ohio, Anderson, Ind., Cleveland, Ohio, Greenfield, Ohio, Indianapolis, Ind.,

Louisville, Ky., and Marion, Ind., are published by the Canadian Pacific Ry.

Through Rates on Miscellaneous Commodities from stations on the Canadian Pacific Ry. and connections, **to** points in Central Freight Association Territory, are published by the Canadian Pacific Railway.

Through Class and Commodity Rates from stations on the Boston and Maine R. R. and the Maine Central Railroad (in Quebec), **to** Central Freight Association points, are published by the New England Freight Association.

Through Class and Commodity Rates from points on the Ottawa and New York Railway (in Ontario), **to** Central Freight Association points, are published by the New York Central and Hudson River Railroad Co.

Through Rates from points on the Michigan Central Railroad, Pere Marquette R. R. and Wabash R. R., **to** points in Central Freight Association Territory, are published by the Individual Carriers named. All other tariffs applying from Canadian Freight Association Territory to Central Freight Association Territory, are published in a similar manner to the illustrations given. Many of the small lines, operating in Canadian Freight Association Territory, do not publish tariffs naming through rates to Central Freight Association points, the tariffs being published by connecting lines.

Where no through rates are in effect, rates are made on the lowest combinations, the tariffs being published by the Individual Carriers except Class Rates from points in Ontario, in Central Freight Association Territory to Milwaukee, Manitowoc, Green Bay, Oconto, Marinette, Wis., Manistique, Mich., and points taking same rates, which are published by the Central Freight Association in Tariff 140 Series.

§ 4. Application of Tariffs from Canadian Freight Association Territory to Southeastern and Carolina Territories, Including South of the Walhalla Line; also to Atlanta Sub-territory and Montgomery Sub-territory.

There are no through rates from Canadian Freight Association Territory to Southeastern and Carolina Territories, except as provided for in the following tariffs:

(1) **Commodity Rates from** points on the Ottawa and New York Railway in Baltimore & Ohio Railroad Eastern Cities Tariff naming rates **from** Trunk Line Territory **to** Southern, Southeastern and Southwestern Common and Local points.

(2) **Commodity Rates from** points on the Ottawa and New York Railway, as provided for in Pennsylvania Railroad Eastern Cities Tariff, naming rates **from** Trunk Line Territory **to** Local and Junction points in the South and Southwest.

(3) **Commodity Rates,** as provided for in Philadelphia and Reading Railway Co. Eastern Cities Tariff, naming rates **from** Trunk Line Territory **to** Local and Junction points in the South and Southwest.

(4) **Class and Commodity Rates from** points in Quebec and Ontario via Water and Rail, as provided for in J. J. Cottrell's Rail and Water Eastern Cities Tariff, naming rates **from** Trunk Line and New England Territory **to** Local and Junction points in the South and Southwest.

(5) **Through Rates to** Southeastern and Carolina Territory are made on the Ohio River combination, by using the tariffs of the Individual Carriers, or their connections originating traffic in Canadian Freight Association Territory, to the Ohio River Crossings.

(6) **The Class and Commodity Rates** applying **from** the Ohio River Crossings, **to** Carolina Territory, are published in M. P. Washburn's Carolina Tariff.

(7) The Class and Commodity Rates from the Ohio River Crossings, to Southeastern Territory Basing Points, are published in M. P. Washburn's Southeastern Tariff.

When shipments are destined to Local and Junction points, the rates, as published in M. P. Washburn's Southeastern Basis Book, are to be added to the rates published in M. P. Washburn's Southeastern Tariff from the Ohio River Crossings to the basing point, to make through rates, except on shipments destined to points in Florida located beyond Jacksonville. On this particular traffic, M. P. Washburn's Southeastern Tariff contains Class and Commodity Rates from the Ohio River Crossings, to Jacksonville, Fla. In order to make rates to local points, it is necessary to add to the rates referred to, the rates published in Hinton's Florida Basis Book.

§ 5. Application of Tariffs from Canadian Freight Association Territory to Mississippi Valley Territory.

Through Class and Commodity Rates from points in Ontario, in Central Freight Association Territory, to Memphis, Tenn., New Orleans, La., Mobile, Ala., Pensacola, Fla., Helena, Ark., Gulfport, Miss., Natchez, Miss., Vicksburg, Miss., and other Lower Mississippi River points in Mississippi Valley Territory, are published by the Central Freight Association in Tariff 15 Series.

Through Rates from Canadian Freight Association Territory, to other Mississippi Valley points can be made on the Ohio River combination, by using the tariffs of the Individual Carriers, or their connections originating traffic in Canadian Freight Association Territory, to the Ohio River Crossings and the rates, as published from the Ohio River Crossings to the various destinations in Mississippi Valley Territory, to make through rates.

The rates from the Ohio River Crossings to Mississippi

Valley points applying on Canadian traffic, are published in the same manner as shown under Central Freight Association to Mississippi Valley Territory in this volume.

Where through rates are not published from points in Canadian Freight Association Territory to the Ohio River Crossings, through rates are made on the lowest legal combination.

§ 6. Application of Tariffs from Canadian Freight Association Territory to St. Paul, Duluth, Winona, and Common Points, Upper Peninsula of Michigan, Proportional Rates to Missouri River and Duluth, also to Minnesota Points to Which No Through Rates Apply.

Through Class Rates are published from the Western portion of Canadian Freight Association Territory (points in Central Freight Association Territory), to St. Paul, Duluth, Winona and the Common Points and points in the Upper Peninsula of Michigan, in Central Freight Association Tariff No. 12 Series.

The Central Freight Association also publish Commodity Rates on:

(1) **Paper, Strawboard, Roofing and Wood Pulp Board from** stations in Ontario, to points in Illinois, Minnesota, Wisconsin and Michigan (Upper Peninsula) in Tariff 159 Series.

(2) **Through Class Rates from** points on the Ottawa and New York Railway, to St. Paul, Duluth, Winona and the Common Points, are published by the New York Central and Hudson River Co.

(3) **Through Class Rates from** points on the Boston and Maine Railroad and Maine Central Railroad (in Quebec), to St. Paul, Duluth, Winona and the Common Points, are published by the New England Freight Association.

(4) **Through Rates from** other points in Canadian Freight Association Territory, **to** St. Paul, Duluth, Winona and Common Points, are published by the Individual Carriers or their connections and apply from the principal points in Canadian Freight Association Territory.

(5) Where through rates are not provided for, the rates are made on the lowest legal combination.

(6) **Through Class Rates from** stations on the Canadian Pacific Ry. and connecting lines, **to** stations on the Duluth, South Shore and Atlantic Ry., Minneapolis, St. Paul and Sault Ste. Marie Ry. and connecting lines in the Upper Peninsula of Michigan, are published by the Canadian Pacific Ry.

Some of the tariffs referred to, under this Section, name proportional rates **to** the Missouri River applying on traffic destined **to** points in Idaho, Montana, Oregon and Washington, to be used in making combination rates; also contain rates **to** Duluth, applying on shipments destined **to** points in the Canadian Northwest.

In making rates **to** points in Minnesota, to which no through rates are published, the tariffs shown under this Section may be used **to** St. Paul, Duluth or Minnesota Transfer, and the rates **from** Minnesota Transfer, St. Paul or Duluth, published by the Individual Carriers operating **from** the points named, **to** the various points of destination in the State of Minnesota.

§ 7. Application of Tariffs from Canadian Freight Association Territory to Trans-Mississippi River Territory and Missouri River Points.

There are no through rates **from** Canadian Freight Association Territory, except the Ocean and Rail rates published by Agent Sedgman of the Seaboard Texas

Committee and the through rates published from the Western Portion of Canadian Freight Association Territory, by the South Western Tariff Committee.

Through Rates are made on the Mississippi River combination, by using the tariffs of the individual carriers, or their connections naming rates from the principal points in Canadian Freight Association Territory, to the Mississippi River Crossings, the rates applying from the Mississippi River Crossings to points in Trans-Mississippi Territory.

§ 8. Application of Tariffs from Canadian Freight Association Territory to Trans-Missouri River Territory.

There are no through rates from Canadian Freight Association Territory, to points in Trans-Missouri River Territory. This territory, however, is included within the Trans-Mississippi River Territory and through rates are made in the same manner as the rates to Trans-Mississippi River Territory, shown under Section 7 of this Chapter.

§ 9. Application of Tariffs from Canadian Freight Association Territory to North and South Dakota Points.

There are no through rates from Canadian Freight Association Territory, to points in either North or South Dakota. Through rates are made on the lowest legal combinations as follows:

(1) **North Dakota:** Through rates to points in North Dakota may be made on the Minnesota Transfer combination. The tariffs applying from Canadian Freight Association Territory, to Minnesota Transfer are published as shown under Section 6 of this Chapter. The tariffs applying from Minnesota to the various destinations in North

Dakota, are published by the Individual Carriers operating from Minnesota Transfer to North Dakota.

Combination rates to Fargo, Grand Forks, Hankinson and other junction points in North Dakota, can be made on the Chicago combination by using the individual issues of the Canadian lines or their connections to Chicago, and the tariffs of the carriers terminating traffic at the various junction points in North Dakota from Chicago, to destination. For example: The rates from Chicago to Fargo, applying in connection with the Northern Pacific Ry., are published by the Northern Pacific Ry., while those applying via the Great Northern Ry., are published by the Great Northern Railway.

(2) **South Dakota:** A portion of the State of South Dakota is located in Trans-Mississippi River Territory, and to this section of the State, the rates are made on the Mississippi River combination, by using the tariffs of the individual carriers or their connections originating traffic in Canadian Freight Association Territory, to the Mississippi River Crossings. The proportional rates from the Mississippi River to points in South Dakota, are published in the manner indicated on pages 260 and 261 in previous volume covering Application of Tariffs, Official Classification Territory, Part I, and as shown in this volume under Central Freight Association to Trans-Mississippi River points.

Rates to the portion of South Dakota not in Trans-Mississippi River Territory may be made on the Chicago Combination by using the tariffs of the individual carriers or their connections originating traffic in Canadian Freight Association Territory, to Chicago, Ill.

The rates from Chicago, to the various points in South Dakota, are published as shown on pages 265 and 266 of the volume on Application of Tariffs, Official Classification

Territory, Part I, and as shown under the heading Central Freight Association Territory to North and South Dakota, in this Volume.

§ 10. Application of Tariffs from Canadian Freight Association Territory to Montana Common Points.

There are no through rates from Canadian Freight Association Territory, to the Montana Common Points. Combination rates can be made on Minnesota Transfer by using the tariffs shown under Section 6 of this Chapter to Minnesota Transfer, and the rates as published in Trans-Continental Freight Bureau Tariff No. 14 Series, to the Montana Common Points. This tariff also names rates from Minnesota Transfer, to points in Idaho and Wyoming.

Through rates can also be made on the Chicago Combination, by using the tariffs of the individual carriers or their connections originating traffic in Canadian Freight Association Territory, from point of origin, to Chicago, and the rates from Chicago to the Montana Common Points, published in Trans-Continental Freight Bureau Tariff 14 Series.

§ 11. Application of Tariffs from Canadian Freight Association Territory to Spokane Rate Group.

There are no through rates from Canadian Freight Association Territory to Spokane, Wash., and points taking same rates. Through rates are made on the lowest legal combination. For example: From the Western Portion of Canadian Freight Association Territory through rates can be made on the Minnesota Transfer combination, by using the rates published in Central Freight Association Tariff No. 12 Series to Minnesota Transfer, and the rates from Minnesota Transfer to Spokane, pub-

lished in Trans-Continental Freight Bureau Tariff 4 Series.

Combination rates can be made on Detroit and Chicago as follows:

(1) **Detroit Combination** is made by using the tariffs of the Canadian Line, or the lines originating traffic in Canadian Freight Association Territory, to Detroit, Mich., and adding the rate, published in Trans-Continental Freight Bureau West Bound Tariff 4 Series, to make through rates to Spokane and points taking same rates.

(2) **Chicago Combination:** This combination is made by using the tariffs of the Carriers, or their connections originating business in Canadian Freight Association Territory, to Chicago, Ill. The rates from Chicago, Ill., to Spokane, Wash., and points taking same rates, are published in Trans-Continental Tariff 4 Series.

§ 12. Application of Tariffs from Canadian Freight Association Territory to North Pacific Coast Terminals and Intermediate Coast Territory.

There are no through rates from Canadian Freight Association Territory to the North Pacific Coast Terminals (in United States), or Intermediate North Coast Territory points. Combination rates can be made on Detroit, Chicago or Minnesota Transfer, as follows:

(1) **Detroit Combination:** This combination is made by using the tariffs of the Individual Carriers, or their connections originating business in Canadian Freight Association Territory from point of origin, to Detroit, Mich. These rates are to be added to the rates from Detroit, Mich., to the North Pacific Coast Terminals and Intermediate Coast Points, as published in Trans-Continental Freight Bureau Tariff 4 Series.

(2) **Chicago Combination:** This combination is made by using the tariffs of the individual carriers, or their

connections from point of origin, to Chicago, and the rates published from Chicago to North Pacific Coast Terminals and Intermediate Points, in Trans-Continental Freight Bureau Tariff 4 Series.

(3) **Minnesota Transfer Combination:** This combination is made by using the tariffs naming rates from points in Canadian Freight Association Territory, to Minnesota Transfer. The method of publication is shown under Section 6 of this Chapter. The rates from Minnesota Transfer, to North Pacific Coast Terminals and Intermediate Points, are published in Trans-Continental Freight Bureau Tariff 4 Series.

§ 13. Application of Tariffs from Canadian Freight Association Territory to Louisiana Common Points.

Through Rates are published from points in the Western portion of Canadian Freight Association Territory, to Louisiana Common Points and practically all points in Louisiana, West of the Mississippi River, in Southwestern Lines Tariff 58 Series. Destination points named in this tariff include Alden Bridge, Antrim, Arkana, Benton, Bolinger, Brownlee, Foster, Hughes, Lela, Plain Dealing, Vanceville, Willow Chute, Shreveport, Bossier, Boyce, Lake Charles, West Lake, and other Louisiana Points.

This tariff is to be used in connection with Southwestern Lines Territorial Directory 1 Series, which shows the points of origin and the rate basis to be used.

Through All Rail Rates are made on the lowest legal combinations and are generally made on the Mississippi River Combinations by using the individual issues of the Canadian Lines or their connections originating traffic in Canadian Freight Association Territory, to the Mississippi River Crossings. The tariffs naming rates from the Mississippi River Crossings to Louisiana, are shown on page

252 of the volume containing Application of Tariffs from Official Classification, Part I, and in this volume in tariffs shown as naming rates from Central Freight Association Territory and the Mississippi River, to Louisiana Points.

Through Ocean and Rail Rates, from points in Quebec and Ontario **to** Louisiana Common Points, are published in Southwestern Lines Tariff 64 Series.

§ 14. Application of Tariffs from Canadian Freight Association Territory to Arkansas Common Points.

There are no through All Rail rates **from** Canadian Freight Association Territory, **to** Arkansas Common Points and other points in Arkansas, except as provided for in Southwestern Lines Tariff 45 Series, naming rates to the Arkansas Common Points; and Southwestern Lines Tariff 58 Series, naming rates **to** Texarkana and points taking same rate. These tariffs, used in connection with Southwestern Lines Territorial Directory 1 Series, contain rates **from** points in the Western portion of Canadian Freight Association Territory, **to** Arkansas points.

Through All Rail Rates **from** other points, not provided for in tariffs referred to above, are generally made on the Mississippi River Combinations, by using the tariffs of the individual carriers or their connections originating traffic in Canadian Freight Association Territory, **to** the Mississippi River Crossings. Tariffs 45 and 58 of the Southwestern Tariff Committee name proportional rates **from** Mississippi River Crossings, **to** various destinations in Arkansas.

Through Ocean and Rail Rates **from** points in the Province of Quebec and the Eastern portion of the Province of Ontario, are published **to** Texarkana, Ark., and points taking same rates, in Southwestern Lines Tariff 64 Series.

§ 15. Application of Tariffs from Canadian Freight Association Territory to Oklahoma Rate Points.

Through Rates are published **from** points in the Western Portion of the Canadian Freight Association Territory, **to** points in Oklahoma, in Southwestern Lines Tariff 45, 58 and 15 Series and in a similar manner to which through rates **from** Central Freight Association **to** Oklahoma points are published, as shown in this volume. Through rates **from** other points in Canadian Freight Association Territory, **to** Oklahoma points, can be made on the lowest legal combination. They are, however, usually made on the Mississippi River Combination, by using the tariffs of the individual carriers or their connections, **to** the Mississippi River Crossings. The rates **from** the Mississippi River Crossings **to** the various points of destination, are published in the manner indicated under Section 8 of previous volume, showing the application of tariffs **from** Trunk Line and New England Territories **to** Oklahoma, and as shown in this volume, under the Section containing rates **from** Central Freight Association Territory **to** points in Trans-Mississippi River Territory. Southwestern Lines Tariffs 45, 58 and 15 are to be used in connection with Southwestern Lines Territorial Directory 1 Series.

Through Ocean and Rail Rates are published **from** points in Ontario and Quebec, **to** points in Oklahoma, in Southwestern Lines Tariff 9 Series.

§ 16. Application of Tariffs from Canadian Freight Association Territory to Texas Common Points and Points Taking Rates Higher Than Texas Common Points, Including Houston and Galveston Rate Points and Rio Grande River Crossings.

There are no through All Rail Rates **from** Canadian Freight Association Territory except the through rates

published in Southwestern Lines Tariff 1 Series, naming rates to Texas Common Points and points taking arbitraries higher than Texas Common Points and the Rio Grande Crossings, the rates published in Southwestern Lines Tariff 2 Series to Houston and Galveston and points taking same rates, the rates to Texarkana and points taking same rates, published in Southwestern Lines Tariff 58 Series, the rates to Palmo, Smithland and Rossman, Texas, published in Southwestern Lines Tariff 58 Series.

All other through All Rail Rates are made on the lowest legal combination but are generally made on the Mississippi River Combination, by using the tariffs of the Individual Carriers originating traffic in Canadian Freight Association Territory or the tariffs of their connections naming rates, to the Mississippi River Crossings.

The tariffs referred to above, name proportional rates from the Mississippi River Crossings, to the various points of destination in Texas.

Through Ocean and Rail Rates are published from points in Ontario (Eastern Part) and Quebec, to points in Texas, by Agent Sedgman in Tariff 16 Series.

In using Southwestern Lines Tariff 1 Series and 58 Series, the points of origin and the rate basis are given in Southwestern Lines Territorial Directory 1 Series, which must be used to determine the territorial location of the points of origin. In using Sedgman's Tariff 16 Series, the points of origin in Ontario and Quebec and the application of the rates to Texas points, are given in the tariff itself.

§ 17. Application of Tariffs from Canadian Freight Association Territory to Mexican Common Points.

Through All Rail Rates to the City of Mexico and the Mexican Common Points, are made on the lowest legal

combination. For example: **From** the Western Portion of the Province of Ontario through rates are published **to** the Rio Grande Crossings, in Southwestern Lines Tariff 1 Series, used in connection with Southwestern Lines Territorial Directory 1 Series, and, to these rates, are to be added the rates of the Mexican lines applying **from** the Rio Grande Crossings, **to** the various destinations in Mexico. **From** other points in Canadian Freight Association Territory, through rates can be made on the Mississippi River Combination by using the individual issues of the originating lines, or their connections up to the Mississippi River, the Class Rates published in Southwestern Lines Tariff 1 Series, or the proportional commodity rates published in Southwestern Lines Tariff 88 Series, **to** the Rio Grande Crossings, and the rates as published by the Mexican lines **from** the Rio Grande Crossings, **to** the various destinations in Mexico.

§ 18. Application of Tariffs from Canadian Freight Association Territory to New Mexico and Arizona Points.

There are no through rates **from** Canadian Freight Association Territory, **to** New Mexico and Arizona points and through rates are made on the lowest legal combinations as follows:

(1) **To Arizona:** Through rates **to** Arizona points can be made on the Detroit, Mich., Combination by using the tariffs of the individual carriers or their connections originating traffic in Canadian Freight Association Territory, **to** Detroit, Mich., and the rates **from** Detroit, Mich., **to** points in Arizona as shown in Trans-Continental Tariff 1 Series. Where through rates are not provided for **from** Detroit, Mich., **to** points in Arizona, the rates can be made by using the rates published in Trans-Continental Freight

Bureau Tariff 1 Series to the various junctions in Arizona, and adding the local rate of the lines operating in the State of Arizona; or they can be made on the nearest Pacific Coast Terminal point, plus the local rate from Pacific Coast Terminals to Arizona points.

(2) **To New Mexico:** To points in New Mexico on the Atchison, Topeka and Santa Fe Railway, Arizona and New Mexico Ry., El Paso Southwestern System and Southern Pacific Co., through rates are made in a similar manner to that provided for to Arizona, and by the use of the individual issues and Trans-Continental Tariff 1 Series. Through rates to other points in New Mexico, are made on the Mississippi River Combination, by using the individual issues of the Canadian Lines or their connections, to the Mississippi River Crossings. The rates from the Mississippi River Crossings are published as shown on page 258 in volume covering Application of Tariffs from Official Classification Territory, Part I, and as shown in this volume under the Application of Tariffs from Central Freight Association points, to Trans-Mississippi River Territory.

§ 19. Application of Tariffs from Canadian Freight Association Territory to California Terminals and Intermediate South Pacific Coast Territory.

There are no through rates from Canadian Freight Association Territory to the California Terminals or Intermediate South Coast Territory, except the rates on newspaper from Garneau Jct., Quebec, Grand Mere, Hull, Shawinigan Falls, Que., Windsor Mills and Ottawa, Ont., to California Terminals, published in Trans-Continental Tariff 1 Series.

Through rates on other classes and commodities are made on the lowest legal combination, by using the tariffs

of the individual carriers originating traffic to the nearest U. S. points, and the rates as published from points in the United States to the California Terminals and Intermediate South Coast Territory, in Trans-Continental Freight Bureau Tariff 1 Series.

§ 20. Application of Tariffs from Canadian Freight Association Territory to Winnipeg and Canadian Northwest Points.

Through Rates are published, both Class and Commodity, from points in Eastern Canada, in Canadian Freight Association Territory, to points in the Northwest and British Columbia Coast Terminals, by the individual carriers or their connections operating in Canadian Freight Association Territory. The following is an example of how the rates are published:

The Canadian Pacific Ry. publishes Through Class and Commodity Rates applying **between** points in Eastern Canada, on the Canadian Pacific and its connections, and the British Columbia Pacific Coast Terminals.

The Canadian Pacific Ry. publishes Class Rates **from** Canadian Pacific Railway Stations, in Canadian Freight Association Territory, to Grand Forks, Nelson, Phoenix and Rossland, British Columbia.

Through Class and Commodity Rates are published by the Canadian Pacific Ry., applying **from** Canadian Freight Association Territory, to other points in the Canadian Northwest Territory.

The Canadian Pacific Ry. also publishes Through Lake and Rail Rates.

The Grand Trunk Railway System publishes Through Class and Commodity Rates applying **from** points on the Grand Trunk Ry. System and its connections in Canadian Freight Association Territory, to the British Columbia

Coast Terminals and other points in the Canadian Northwest. The tariffs of the Grand Trunk Ry. are published in a similar manner to those issued by the Canadian Pacific Ry.

§ 21. Application of Tariffs from Canadian Freight Association Territory to Madison, Janesville, Beloit, and Other Points in Wisconsin to Which No Through Rates Are Published.

Through Rates to Madison, Janesville, Beloit, and other Wisconsin points are made on the lowest legal combination, by using the individual issues of the Canadian Lines or their connections, to Milwaukee, Racine, Rockford, etc., and the tariffs of the Individual Carriers operating from the points named to the various destinations in the State of Wisconsin.

Through Class Rates from points in the western portion of the Canadian Freight Association Territory to Wisconsin points are published by the Central Freight Association in Tariff No. 12 Series.

CHAPTER X.

APPLICATION OF TARIFFS WITHIN AND FROM THE CANADIAN NORTHWEST TERRITORY TO OTHER POINTS.

§ 1. Application of Tariffs Within the Canadian Northwest.

The tariffs applying within the Canadian Northwest are published in the following manner:

The Canadian Pacific publishes Distributing Class Rates applying **from** Wholesale Centers, such as Brandon, Calgary, Edmonton, Moose Jaw, Portage la Prairie, Regina, Saskatoon and Winnipeg **to** points in Alberta, British Columbia, Manitoba and Saskatchewan.

The Canadian Pacific Ry. publishes rates applying on Classes and Commodities **between** Port Arthur, Fort William, Westfort, Ont., and stations on the Canadian Pacific Railway in the Canadian Northwest.

The Canadian Northern Railway publishes Distributing Class Rates **from** Battleford, Sask., Brandon, Man., Calgary, Alta., Camrose, Alta., Edmonton, Alta., Moose Jaw, Sask., North Battleford, Sask., Portage la Prairie, Man., Prince Albert, Sask., Regina, Sask., Saskatoon, Sask., Winnipeg, Man., **to** stations on the Canadian Northern Railway in the Province of Ontario (Western Portion), Manitoba, Saskatchewan and Alberta.

Through Class and Commodity Rates between Brandon, Man., Fort William, Ont., Portage la Prairie, Man., Port Arthur, Ont., St. Boniface, Man., Westfort, Ont., Winni-

peg, Man., and New Westminster, Vancouver, Victoria, B. C., and points taking same rates or arbitraries higher in Northern Pacific Ry. Co. Tariff 974 Series.

Other rates within Canadian Northwest Territory are published by the Individual Carriers, in a similar manner to the examples given.

§ 2. Application of Tariffs from Canadian Northwest Territory to Canadian Freight Association Territory.

Through Rates are published applying on both Classes and Commodities **from** points in the Canadian Northwest **to** Canadian Freight Association Territory.

The tariffs are published by the Individual Carriers. For example: The Canadian Pacific publishes Class Rates **from** British Columbia Coast Terminals **to** Canadian Freight Association Territory; also tariffs naming Class and Commodity Rates and Specific Commodity Rates **from** Canadian Northwest Territory **to** Canadian Freight Association Territory.

Through Rates are published by the Grand Trunk System applying on both Classes and Commodities **from** the British Columbia Terminals and points in the Canadian Northwest to Canadian Freight Association Territory.

§ 3. Application of Tariffs from Canadian Northwest Territory to Central Freight Association Territory.

There are no through rates **from** points in the Canadian Northwest **to** Central Freight Association Territory except as follows:

Through Rates are published **from** the British Columbia Terminals applying upon both Classes and Commodities, **to** Central Freight Association Points, in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Specific Commodity Rates from points in the Canadian

Northwest, to points in Central Freight Association Territory, are published by the Canadian Lines originating traffic in the Canadian Northwest.

As a general proposition, through rates from the Canadian Northwest to Central Freight Association Territory, are made on the St. Paul, Minnesota Transfer or Duluth Combination.

The Canadian Northern Railway publishes rates on Classes and Commodities between Duluth, St. Paul, Minnesota Transfer and points taking same rates, and stations on the Canadian Northern Railway, in Ontario, Manitoba, Saskatchewan and Alberta.

The Great Northern Ry. issues a joint tariff in connection with the Minneapolis, St. Paul and Sault Ste. Marie Ry. and Northern Pacific Ry., naming rates between Minnesota Transfer, Duluth and points taking same rates and points on the Brandon, Saskatchewan and Hudson Bay Ry. (in Manitoba), points on the Canadian Northern Ry. in Ontario, Manitoba, Saskatchewan and Alberta, points on the Canadian Pacific Ry. (in Manitoba), points on the Manitoba Great Northern Ry. (in Manitoba), points on the Midland Ry. Co. of Manitoba. The other tariffs, applying between Minnesota Transfer, St. Paul and Duluth, are published in a similar manner.

The Western Trunk Line Committee publishes Class Rates from Minnesota Transfer and Duluth, to Central Freight Association points (East of the Indiana-Illinois State Line), in Western Trunk Line Tariff 51 Series.

The Western Trunk Line Committee publishes rates applying on Miscellaneous Commodities from Minnesota Transfer and Duluth, to points in Central Freight Association Territory (East of the Indiana-Illinois State Line), in Tariff 49 Series.

The Western Trunk Line Committee also publishes

rates on Grain Products, Malt, and articles taking same rates, **from** Minnesota Transfer and Duluth, **to** Central Freight Association Points, in Tariff 71 Series.

Through Rates on Lumber, Carload, and Articles Taking Same Rate, from Minnesota Transfer and Duluth, **to** Central Freight Association points, are published in Western Trunk Line Tariff 21 Series.

Through Rates on Potatoes, Carloads and Articles Taking Same Rates, from Minnesota Transfer and Duluth, **to** Central Freight Association points, are published by the Western Trunk Line Committee in Tariff 76 Series.

The rates applying **from** the various points in the Canadian Northwest **to** Minnesota Transfer and Duluth, are to be added to the rates published **from** Minnesota Transfer and Duluth by the Western Trunk Line Committee, to make through rates.

§ 4. Application of Tariff from Canadian Northwest Territory to Trunk Line and New England Territories.

Through Rates are published **from** British Columbia Coast Terminals **to** Trunk Line and New England Territories, in Trans-Continental East-Bound Tariff 2 Series.

Generally speaking, the rates **from** points in Canadian Northwest Territory, other than British Columbia Coast Terminals, are made on the lowest legal combination. For example:

A shipment originating at a point on the Canadian Pacific Ry. and destined to New York City, moving on a Class Rate, the through rate in this instance can be made on the Fort William or Port Arthur, Ont. combination. The Canadian Pacific Ry. publishes rates **from** points on the Canadian Pacific, in the Canadian Northwest, **to** Fort William and Port Arthur, Ont. These rates are added to the proportional rates published by

the Canadian Pacific Railway, and applying from Fort William and Port Arthur, Ont., to Trunk Line and New England Territories, so that the rate from point of origin to Port Arthur or Fort William, would be added to the rate from Fort William or Port Arthur to New York City, to make through rates.

Through Rates can also be made on the Minnesota Transfer, Buffalo Combination. For example:

A shipment originating at Winnipeg, on the Canadian Northern Ry. and destined to New York City, moving on a Class Rate. The Class Rate **from** Winnipeg **to** Minnesota Transfer, is published by the Canadian Northern Railway, the Class Rate **from** Minnesota Transfer **to** Buffalo, N. Y., is published by the Western Trunk Line Committee in Tariff 51 Series, and the Class Rates **from** Buffalo, N. Y., **to** New York City, are published by the New York Central and Hudson River R. R., so that the rates in the three tariffs referred to, would be added together to make the through rate, or the Minnesota Transfer, Chicago combination, could be used as follows:

A shipment originating at Winnipeg, Man., on the Northern Pacific Ry., destined to Albany, N. Y., a point on the New York Central & Hudson River R. R., moving on a Class Rate, the rate **from** Winnipeg **to** Minnesota Transfer is published in Northern Pacific Tariff 622 Series, the rate **from** Minnesota Transfer **to** Chicago is published by the Western Trunk Line Committee in Tariff 5 Series, and the rate **from** Chicago **to** Albany is published by the New York Central Lines (West of Buffalo.)

There are, however, a great many instances where the Minnesota Transfer can be used, as there are numerous Commodity Tariffs applying **from** Minnesota Transfer **to** Trunk Line and New England Territory. Full reference to these tariffs will be given in a subsequent Volume

under the heading "Application of Tariffs from Western Trunk Line Territory to Trunk Line and New England Territories."

Through Rates on Lumber, Shingles and Articles taking same rates, are published **from** British Columbia Points **to** Trunk Line and New England Territory, in Trans-Continental Tariff 17 Series.

§ 5. Application of Tariffs from Canadian Northwest Territory to Carolina Territory.

There are no through rates **from** Canadian Northwest Territory **to** Carolina Territory.

Through Rates from British Columbia Coast Terminals can be made on the Ohio River Crossings combination, by using the rates published in Trans-Continental Tariff 2 Series **to** the Ohio River Crossings, and the rates published **from** the Ohio River Crossings **to** Carolina Territory, published by M. P. Washburn, Agent, in Washburn's Carolina Tariff.

Through Rates from other points in the Canadian Northwest, may be made on the Minnesota Transfer, Ohio River combination, by using the tariffs of the individual carriers naming rates **to** Minnesota Transfer, Western Trunk Line Tariff 86 Series **from** Minnesota Transfer **to** the Ohio River, and Washburn's Carolina Tariff **from** the Ohio River **to** points in Carolina Territory.

Through Miscellaneous Commodity Rates are published **from** Minneapolis and St. Paul, Minn., **to** points in Carolina Territory, by C. E. Fulton, Agent, Ohio River Committee in Tariff 107 Series. This tariff can be used in making through rates to other points in Carolina Territory.

§ 6. Application of Tariffs from Canadian Northwest Territory to Southeastern Territory.

Through Rates are published **from** British Columbia

Terminals to points in Southeastern Territory, in Trans-Continental East-Bound Tariff 2 Series.

Where through rates are not published, combination rates can be made on the Minnesota Transfer, Ohio River combination, from Terminals, by using the rates published in Trans-Continental East-Bound Tariff 2 Series, to the Ohio River Crossings, and the tariffs published by the individual carriers from other points in the Canadian Northwest, to Minnesota Transfer. The rates from Minnesota Transfer to the Ohio River Crossings, are published in Western Trunk Line Tariff 86 Series. The rates from the Ohio River Crossings to basing points, in Southeastern Territory, are published in Washburn's Southeastern Tariff. The rates from basing points, to local and junction points, in Southeastern Territory, are published in M. P. Washburn's Southeastern Basis Book. The rates shown in the tariffs referred to, are to be added together to make through rate, depending upon the point of origin and final destination of the shipment. On shipments destined to points in Florida, the rates from the Ohio River Crossings to Jacksonville, Fla., are published in Washburn's Southeastern Tariff, and the rates from Jacksonville to various points in the State of Florida, are published in Hinton's Florida Basis Book. For example:

If you had a shipment moving from Winnipeg, Man., to Tampa, Fla., originating with the Great Northern Ry., the rates from Winnipeg to Minnesota Transfer, are published by the Great Northern Ry., the rates from Minnesota Transfer to the Ohio River in Western Trunk Lines Tariff 86 Series, the rates from the Ohio River to Jacksonville in Washburn's Southeastern Tariff, and the rates from Jacksonville to Tampa, in Hinton's Florida Basis Book.

The rates in the four tariffs referred to must be added together, to make through rates from Manitoba to Tampa, Fla.

Through Miscellaneous Commodity Rates from Minneapolis and St. Paul, Minn., to points in Southeastern Territory, are published by C. E. Fulton, Agent, Ohio River Committee in Tariff 107 Series.

§ 7. Application of Tariffs from Canadian Northwest Territory to Mississippi Valley Territory.

Through Rates are published from British Columbia Coast Terminals to points in Mississippi Valley Territory, in Trans-Continental Tariff 2 Series.

Through Rates from points in the Canadian Northwest, (except British Columbia Coast Terminals), are made on the lowest legal combination. For example:

A shipment moving from Winnipeg via the Northern Pacific, final destination New Orleans, La., the through rate, in this instance, would be made by using Northern Pacific Tariff 622 Series to Minnesota Transfer, and the rates published from Minnesota Transfer to New Orleans in Western Trunk Line Tariff 80 Series. This tariff names rates on Classes and Commodities, from Minnesota Transfer to New Orleans and points taking same rates, also to Memphis, Tenn., Jackson and Meridian, Miss.

Through Rates to other Mississippi Valley points can be made on the Minnesota Transfer, Ohio River combination. The rates from Minnesota Transfer to the Ohio River, are published in Western Trunk Line Tariff 86 Series. The rates from the Ohio River are published in the tariffs referred to in this Volume, under the heading of "Application of Tariffs from Central Freight Association Territory to Mississippi Valley Territory."

§ 8. Application of Tariffs from Canadian Northwest Territory to Southwestern Committee Territory.

The rates from the Canadian Northwest to points in Southwestern Committee Territory, are published in the following manner:

(1) **To Arkansas: Through Rates** are published from British Columbia Coast Terminals to Arkansas, in Trans-Continental Freight Bureau East-Bound Tariff 2 Series.

Through Rates from other points in the Canadian Northwest to Arkansas, are generally made on the Minnesota Transfer combination, by using the individual issues as shown in previous Sections from points in the Canadian Northwest to Minnesota Transfer.

The rates from Minnesota Transfer to Ashdown, Hope, McNeal, Texarkana and points taking same rate, are published in Southwestern Lines Tariff 49 Series.

Through Rates from Minnesota Transfer, to Little Rock, Fort Smith, Pine Bluff and other Arkansas points, are published in Southwestern Lines Tariff 45 Series.

There are other tariffs naming Through Commodity Rates from Minnesota Transfer to Arkansas Points, reference to which will be given in a subsequent volume, under the heading of "From Western Trunk Line Territory to Southwestern Tariff Committee Territory."

(2) **To Louisiana: Through Rates** are published from British Columbia Coast Terminals, to Louisiana, in Trans-Continental Freight Bureau Tariff 2 Series. Rates from other points can be made on the Minnesota Transfer combination, by using individual issues referred to in other Sections, from points in the Canadian Northwest to Minnesota Transfer.

Through Rates from Minnesota Transfer to Alden Bridge, Antrim, Arkana, Benton, Bolinger, Foster, Lela,

Plain Dealing, Vanceville, Willow Chute and other Louisiana points, are published in Southwestern Lines Tariff 49 Series.

Through Rates from Minnesota Transfer **to** Bossier, Boyce, Monroe, Minden, Shreveport, Lake Charles, West Lake and other Louisiana points, are published in Southwestern Lines Tariff 58 Series.

(3) **To Mexico:** There are no through rates **from** the Canadian Northwest to Mexico. From British Columbia Coast Terminals, combination rates can be made on El Paso, Eagle Pass or Laredo, Texas, by using the rates published in Trans-Continental Freight Bureau East-Bound Tariff 2 Series, **to** the Rio Grande Crossings named, and the rates published by the Mexican Lines **from** the Crossings named, **to** the various points of destination of Mexico.

Through Rates from other points in the Canadian Northwest (Except British Columbia Terminals) are made on the Minnesota Transfer, Rio Grande Crossings combination. The rates **from** the Canadian Northwest, **to** Minnesota Transfer, are published by the Minneapolis, St. Paul and Sault Ste. Marie Ry., The Great Northern Ry. and Canadian Northern Ry. Specific Commodity rates are published, applying on Grain and Live Stock, by the Individual Carriers, and rates on Lumber and Forest Products are published by the Trans-Continental Freight Bureau, **to** Minnesota Transfer.

Class and Commodity Rates are published **from** Minnesota Transfer, **to** the Rio Grande Crossings, in Southwestern Lines Tariff 1 Series, and Specific Export Commodity rates **from** Minnesota Transfer, **to** the Rio Grande Crossings, in Southwestern Lines Tariff 88 Series. To these rates are to be added the rates of the Mexican Lines operating **from** the Rio Grande Crossings, **to** Mexico.

(4) **To Oklahoma: Through Rates from** British Columbia Coast Terminals **to** Oklahoma, are published in Trans-Continental Freight Bureau East-Bound Tariff 2 Series.

Through Rates from other points can be made on the Minnesota Transfer combination, by using the individual issues referred to in previous sections, **from** the Canadian Northwest points **to** Minnesota Transfer.

Through Rates from Minnesota Transfer **to** Fogles Spur, Heavenor, Page, Thomasville and other Oklahoma points, are published in Southwestern Lines Tariff 49 Series.

Through Rates from Minnesota Transfer **to** Alexandria, Ballard, Baptist, Barron Fork, Blank, Braden, Bunch, Cameron, Cavanal, Chert, Ballast Pit, Cold Creek, Dodge, Fascine, Gans, Grove, Howe, Lyons, Marble City, Monroe, Neff, Ozark, Panama, Poteau, Potter, Redlamb, Reynolds, Scullyville, Shady Point, Spiro, Stillwell, Watts, Williams, Windsor, Wister, Wittville and other Oklahoma points, are published in Southwestern Lines Tariff 45 Series.

Through Rates from Minnesota Transfer, **to** all other Oklahoma points, except as contained in Tariffs 45 and 49, are published in Southwestern Lines Tariff No. 15 Series.

(5) **To Texas: Through Rates from** British Columbia Coast Terminals, **to** Texas Points, are published in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Through Rates from other points can be made on the Minnesota Transfer combination. The tariffs **to** Minnesota Transfer are published in the manner indicated under previous Sections. The rates **from** Minnesota Transfer **to** Texas points, are published in the following manner:

1a. **To** Texas Common Points and points taking arbi-

traries higher, also to the Rio Grande Crossings, in Southwestern Lines Tariff 1 Series.

2a. To Houston and Galveston and points taking same rate, in Southwestern Lines Tariff 2 Series.

3a. To Palmo, Rossman and Smithland, Tex., in Southwestern Lines Tariff 58 Series.

4a. To Texarkana and points taking same rates, in Southwestern Lines Tariff 58 Series.

There are other tariffs naming rates from Minnesota Transfer to Texas points. These tariffs will be referred to in subsequent Volume under the heading of "From Western Trunk Line Territory to Southwestern Tariff Committee Territory." The tariffs referred to, under this Section, are tariffs containing both Class and Commodity rates.

You should understand, however, where no through rates are in effect and no specific manner provided for making through rates, that the lowest legal combination may be taken advantage of, when shipments are properly routed.

§ 9. Application of Tariffs from Canadian Northwest Territory to Missouri River Points.

Through Rates are published from British Columbia Coast Terminals, in Trans-Continental East Bound Tariff 2 Series.

Generally speaking, Through Rates from other points in the Canadian Northwest combination are made on Minnesota Transfer, by using the individual issues of the Canadian Northern Ry., and the lines operating from Minnesota Transfer to the Canadian Northwest, to Minnesota Transfer. The Class and Commodity rates from Minnesota Transfer to the Missouri River Crossings, are published in Western Trunk Line Tariff 1 Series.

In addition to the rates published in Western Trunk Line Tariff 1 Series, there are tariffs containing Specific Commodity Rates which will be referred to in a subsequent Volume, under the heading of "Application of Tariffs within Western Trunk Line Territory."

§ 10. Application of Tariffs from Canadian Northwest Territory to Colorado Common Points and Other Points in Colorado.

Through Rates are published **from** British Columbia Coast Terminals **to** the Colorado Common Points and other points in the State of Colorado, in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Through Rates from points in the Canadian Northwest (other than British Columbia Coast Terminals) can be made on the Minnesota Transfer combination, by using the individual issues naming rates **from** points in the Canadian northwest, **to** Minnesota Transfer, and the rates published **from** Minnesota Transfer **to** the Colorado Common Points, in Trans-Missouri Freight Bureau Tariff 11 Series.

When shipments are destined **to** points in Colorado, beyond the Common Points, combination rates are made on Pueblo, Trinidad, Denver or Colorado Springs, by adding the rates published by the Individual Carriers **from** the points named, **to** the various destinations in the State of Colorado.

§ 11. Application of Tariffs from Canadian Northwest Territory to Utah Common Points.

There are no through rates from points in the Canadian Northwest to Utah Common Points.

From British Columbia Coast Terminals, combination rates can be made on Denver, Colo., by using the rates published in Trans-Continental Freight Bureau East Bound Tariff, **from** the British Columbia Coast Terminals **to** Denver, and the rates published in Colorado-Utah Freight Bureau Tariff 4 Series, **from** Denver **to** the Utah Common Points. Combination rates may also be made on the Missouri River Crossings or Minnesota Transfer, by using Trans-Continental East Bound Tariff *2* Series **from** the British Columbia Coast Terminals **to** Minnesota Transfer or the Missouri River, and the rates published in Trans-Missouri Freight Bureau Tariff 20 Series, **from** Minnesota Transfer or the Missouri River Crossings, **to** the Utah Common Points.

From Canadian Northwest points (except British Columbia Coast Terminals) combination rates can be made on Minnesota Transfer, by using the Individual Issues of the Minneapolis, St. Paul and Sault Ste. Marie Ry., Great Northern Ry. or Canadian Northern Ry., **from** the various points of origin in the Canadian Northwest and the rates published from Minnesota Transfer, **to** the Utah Common Points, in Trans-Missouri Tariff 20 Series.

Through Rates from Canadian Pacific Stations in Alberta, British Columbia and Saskatchewan, **to** the Utah Common Points, can be made on the Spokane Combination. The rates **to** Spokane are published by the Spokane National Railway, in Tariff 122 Series, and the rates **from** Spokane **to** the Utah Common Points, are published in Oregon-Washington Railroad and Navigation Co. Tariff 67 Series. Where no through rates are published, the lowest legal combination may be used providing shipments are properly routed.

§ 12. Application of Tariffs from Canadian Northwest Territory to South Pacific Coast Terminals and Intermediate Coast Territory in Arizona, California, Nevada, New Mexico, Oregon and Utah.

Through Commodity Rates are published **between** Canadian Pacific Railway stations in British Columbia, Alberta, Saskatchewan, Manitoba and Ontario, and San Francisco, Oakland, San Pedro, Port Orient, California, by the Canadian Pacific Railway.

Through Class and Commodity Rates from points in British Columbia **to** South Pacific Coast Terminals, can be made on the Portland Oregon Combination, by using the tariff of the Great Northern Ry. or Northern Pacific Tariff 298, **from** points in British Columbia **to** Portland, Ore., and the tariffs of the Southern Pacific Ry., **from** Portland **to** South Pacific Coast Terminals and other points in California.

From points in the Western Portion of Canadian Northwest Territory, through rates can be made on the Vancouver, Portland Combination, by using the Individual tariffs of the Canadian Lines, **from** points in Canadian Northwest **to** Vancouver, the tariff of the Great Northern Ry. Co. or Northern Pacific Tariff 298 **from** Vancouver **to** Portland, and the tariffs of the Southern Pacific Ry. Co. **from** Portland **to** destination.

From the Eastern portion of Canadian Northwest Territory, combination rates can be made on Minnesota Transfer, by using the tariffs of the lines operating **to** and **from** Minnesota Transfer, and the rates as published in Trans-Continental Freight Bureau Tariff 1 Series, **from** Minnesota Transfer **to** the California Terminals, points in Arizona, Nevada, New Mexico, Oregon and Utah.

§ 13. Application of Tariffs from Canadian Northwest Territory to North Pacific Coast Terminals, and Intermediate Territory Including Spokane Rate Territory (except Canadian Coast Territory).

Through Class and Commodity Rates between Vancouver, B. C., New Westminster, Frazier Mills, B. C., and North Pacific Coast Terminals, are published by the Northern Pacific Ry. Co. in Tariff 298 Series. This tariff also contains rates on Fertilizer and Glue Stock, **from** Calgary, Alta., **to** Seattle and points taking same rates, also rates on Hides, Carloads, **from** Edmonton, Alta., **to** Seattle, Wash., Portland, Oregon, and points taking the same rates.

Through Rates from the Western portion of the Canadian Northwest, **to** North Pacific Coast (U. S. Terminals), can be made on the Vancouver, British Columbia combination, by using the Individual issues of the Canadian lines **to** Vancouver, and the rates published **from** Vancouver, B. C., to North Pacific Coast Terminals, in Northern Pacific Tariff 298 Series.

From the Eastern Portion of the Canadian Northwest, through rates can be made on the Minnesota Transfer Combination, by using the individual issues, referred to in previous Sections, **from** points in the Canadian Northwest **to** Minnesota Transfer, and the rates **from** Minnesota Transfer **to** North Pacific Coast Terminals, published in Trans-Continental Freight Bureau West Bound Tariff 4 Series.

Through Rates are published **from** points on the Canadian Pacific Ry. in Ontario, Alberta, Saskatchewan and British Columbia **to** Spokane, by the Spokane International Railway in Tariff 122 Series.

Combination Rates to Spokane and points taking same rates can be made on Minnesota Transfer, by using the In-

dividual Issues up to Minnesota Transfer, and the rates from Minnesota Transfer to Spokane and points taking same rates, in Trans-Continental Freight Bureau West Bound Tariff 4 Series.

Through Rates are published from Vancouver and New Westminster, B. C., to the Montana Common Points, in Northern Pacific Tariff 1000 Series.

Through Rates from the Western Portion of the Canadian Northwest Territory, can be made on the Vancouver, British Columbia combination, by using the individual issues of the Canadian Lines operating from Canadian Northwest Territory to Vancouver, and the rates published from Vancouver to the Montana Common points, in Northern Pacific Tariff 1000 Series.

Through Rates from the Eastern Portion of the Canadian Northwest to the Montana Common points, can be made on the Minnesota Transfer combination, by using the individual issues applying from points in the Canadian Northwest to Minnesota Transfer, and the rates from Minnesota Transfer to the Montana Common Points, published in Trans-Continental Tariffs 4 and 14 Series.

It should be distinctly understood that where no through rates are published, the lowest legal combination may be used.

Through Class and Commodity Rates are published by the Great Northern Ry., from points on the Vancouver, Victoria and Eastern Ry. and Navigation Co., Victoria and Sidney Ry. and The North Pacific Coast U. S. Terminals and points taking same rates.

Class and Commodity Rates between Vancouver, New Westminster, B. C., and stations in Idaho, Montana and Washington, are published by the Northern Pacific Ry. Co.

Through Class and Commodity Rates between Vancou-

ver, B. C., and points taking same rates, and stations in Montana and North Dakota, are published by the Northern Pacific Ry. Co. in Tariff 1000 Series.

Through Class and Commodity Rates between Vancouver, New Westminster, Victoria and other points in British Columbia, and stations on the Northern Pacific Ry. Co., and its connections in Washington, Oregon and Idaho, are published in Northern Pacific Ry. Co. Tariff 2205 Series.

§ 14. Application of Tariffs from Canadian Northwest Territory to Central Western Points.

(1) **To** points in Colorado, East of the Common Points, through rates are published **from** the British Columbia Coast Terminals, in Trans-Continental Freight Bureau East Bound Tariff 2 Series. **From** the Western Portion of Canadian Northwest Territory, combination rates can be made on Vancouver, B. C., by using the tariffs of the individual carriers operating from the Canadian Northwest **to** Vancouver, and the rates published in Trans-Continental East Bound Tariff 2 Series, **from** Vancouver **to** points in Colorado east of the Common points.

Combination Rates can also be made on Minnesota Transfer, by using the tariffs of the Individual Carriers naming rates, **from** points in the Canadian Northwest **to** Minnesota Transfer, and the rates published **from** Minnesota Transfer **to** points in Colorado, East of the Common Points, in Western Trunk Line Tariff 18 Series. Other tariffs are published, naming rates on Specific Commodities **from** Minnesota Transfer **to** points in Colorado, East of the Common Points. Reference to these tariffs will be given in a subsequent volume, covering Western Trunk Line rates.

(2) To Kansas: Through rates are published **from** the

British Columbia Coast Terminals to Kansas, in Trans-Continental Freight Bureau Tariff 2 Series.

Through Rates from points in the Canadian Northwest (except British Columbia Terminals) to points in Kansas, are made on the lowest legal combination and, in a similar manner, and by the use of the same tariffs referred to under the previous Section, to points in Colorado, east of the Common Points, except that the Class and Commodity rates from Minnesota Transfer to the Missouri River Crossings, are published in Western Trunk Line Tariff 1 Series.

(3) To Nebraska: Through rates are published to points in Nebraska from British Columbia Coast Terminals, in Trans-Continental Freight Bureau East Bound Tariff 2 Series. There are, however, a number of points in Nebraska where no through rates are in effect. Combination rates can be made from British Columbia Coast Terminals, by using the rates published in Trans-Continental East Bound Tariff 2 Series, to the Missouri River Crossings, and the rates published by the Individual Carriers, operating from the Missouri River Crossings to Nebraska points.

The rates from points in Canadian Northwest Territory (except British Columbia Terminals) are made in the same manner, as to points in Kansas, shown in the previous Section, except that to points on the Chicago and North Western Ry., the rates from Minnesota Transfer to Nebraska points, are published in C. & N. W. Tariff 11000 Series.

(4) To Iowa: Through rates to Iowa, from British Columbia Coast Terminals, are published in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Through Rates from other points in the Canadian Northwest (except British Columbia Coast Terminals),

are made on the Minnesota Transfer combination, by using the tariffs of the Individual Carriers naming rates to points in the Canadian Northwest, to Minnesota Transfer, and the tariffs of the Individual Carriers, or their connections operating from Minnesota Transfer, to points in Iowa; with the exception that the rates from Minnesota Transfer to points in Iowa, on the Mississippi River, are published in Western Trunk Line Tariff 5 Series, and the rates to the Missouri River Crossings are published in Western Trunk Line Tariff 1 Series.

There are other Commodity Rates published from Minnesota Transfer to points in Iowa, and reference to the tariffs naming these rates, will be given in a subsequent Volume under the heading of "Application of Tariffs in Western Trunk Line Territory."

(5) To Missouri: Through Rates are published from British Columbia Coast Terminals to the State of Missouri, in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Through Rates from points in the Canadian Northwest (except British Columbia Terminals), to points in the State of Missouri, are made on the Minnesota Transfer combination, by using the tariffs of the Individual Carriers to Minnesota Transfer and the tariffs of the Individual Carriers from Minnesota Transfer to points in Missouri, except that the rates to St. Louis and points taking same rates, are published in Western Trunk Line Tariff 5 Series, and the rates to the Missouri River Crossings, are published in Western Trunk Line Tariff 1 Series.

There are other Commodity Rates published from Minnesota Transfer and reference to these tariffs will be given in a subsequent Volume under the heading of "Application of Tariffs within Western Trunk Line Territory."

(6) To Wyoming: Through rates are published from

British Columbia Coast Terminals, also to stations on the Union Pacific R. R. Co., West of Cheyenne, in Trans-Continental Freight Bureau East Bound Tariff 2 Series.

Through Rates to other points in Wyoming, are made on the lowest legal combination. From the Eastern portion of the Canadian Northwest, combination rates can be made on Minnesota Transfer, by using the tariffs of the Individual Carriers naming rates **from** points in the Canadian Northwest **to** Minnesota Transfer. The rates **from** Minnesota Transfer **to** points in Wyoming, on the Chicago and North Western Ry., are published in C. & N. W. Ry. Tariff 11000 Series.

The Class and Commodity rates **from** Minnesota Transfer **to** points in Wyoming on the Union Pacific R. R., Colorado and Southern Ry. and Colorado and Wyoming Ry., are published by the Union Pacific R. R. There are other tariffs applying **from** Minnesota Transfer, and reference to these tariffs will be given in subsequent Volumes.

(7) To Illinois: Through rates are published **from** the British Columbia Terminals, in Trans-Continental East Bound Tariff 2 Series.

Rates from other portions of the Canadian Northwest, are made on the Minnesota Transfer Combination, by using the tariff of the Minneapolis, St. Paul and Sault Ste. Marie Ry., Great Northern Ry. and Canadian Northern Ry., **from** the various points in the Canadian Northwest **to** Minnesota Transfer, and the Class and Commodity rates **from** Minnesota Transfer **to** Illinois points, published in Western Trunk Line Tariff 5 Series.

There are Specific Commodity Rates published **from** Minnesota Transfer **to** points in Illinois, and reference to these tariffs will be given in a subsequent Volume, under the heading of "Application of Tariffs within the Western Trunk Line Territory."

In addition to the various applications of tariffs given in this Chapter, through rates on Lumber, Shingles and articles taking same rates, are published from points in British Columbia to points in Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Tennessee and Wisconsin.
